*ADA Compliance*

Any individual with a disability requesting a reasonable accommodation in order to participate in a public meeting should contact the ADA Coordinator, Jennifer McMahon, at least 48 hours in advance of the scheduled meeting. The ADA Coordinator can be reached in person at 2 East Main Street, St. Charles, IL, via telephone at (630) 377 4446 or 800 526 0844 (TTY), or via e-mail at [jmcmahon@stcharlesil.gov](mailto:jmcmahon@stcharlesil.gov). Every effort will be made to allow for meeting participation. Notices of this meeting were posted consistent with the requirements of 5 ILCS 120/1 et seq. (Open Meetings Act).

**CITY OF ST. CHARLES  
HISTORIC PRESERVATION COMMISSION  
KIMBERLY MALAY, CHAIR**

**WEDNESDAY, March 18, 2026 – 5:30 P.M.**

**Members Present:** Smunt, Kessler, Pretz, Malay

**Members Absent:** Rice

**Also Present:** Emma Field, Planner; Al Watts, Preservation Partners of the Fox Valley;  
Ruth Ann and Bart Seney, 304 Park Ave; Stephanie Roth, 317 Fulton Ave

**1. Call to Order**

Ms. Malay called the meeting to order at 5:38 P.M.

**2. Roll Call**

Roll was called with 4 members present.

**3. Discussion with Landmark Owners in the Pottawatomie Neighborhood**

The Commission spoke with 3 of the property owners of landmarked buildings in the Pottawatomie neighborhood. The Commission started with describing the positive aspects of being under the Historic Preservation Ordinance. They spoke about having the Commission be a resource of knowledge for any exterior improvement or renovation project an owner plans on taking up on their home. The Commission explained that landmarked buildings have the highest integrity. The Commission asked about the perception of being in a Historic District.

Landmark property owners explained why they decided to landmark their home and the importance to them of living in a historic home. The owners also described why they loved being in the Pottawatomie neighborhood. The owners also shared their fears of further knockdowns in the neighborhood.

The landmark owners and Commission discussed that an education meeting is needed for understanding regulations and benefits of being in a historic district, such as the level of restriction of what you can do to your home.

The Commission discussed building materials that have been approved throughout the years and how the Commission is reasonable when working with property owners to find material that is cost efficient and of good quality.

**4. Adjournment**

With no further business to discuss, the meeting adjourned at 6:30 P.M.

**CITY OF ST. CHARLES  
HISTORIC PRESERVATION COMMISSION  
KIMBERLY MALAY, CHAIR**

**Members Present:** Rice, Smunt, Kessler, Malay, Pretz

**Members Absent:** None

**Also Present:** Emma Field, Planner Russ Colby, Director of Community Development

**1. Call to Order**

Ms. Malay called the meeting to order at 7:00 P.M.

**2. Roll Call**

**3. Approval of Agenda**

Ms. Field requested to add 11.b. Hotel Baker Sign to Additional Business.

**A motion was made by Mr. Pretz and seconded by Mr. Kessler with a unanimous voice vote to approve the amended agenda.**

**4. Presentation of minutes of the March 4, 2026 meeting**

**A motion was made by Mr. Kessler and seconded by Dr. Smunt with a unanimous voice vote to approve the Minutes.**

**5. Certificate of Appropriateness (COA) applications**

**a. 207 Illinois Avenue**

Mr. Paul Lencioni, Business Owner, presented COA to change freestanding sign at 207 Illinois Avenue.

Ms. Rice asked for confirmation whether the new sign size is the same as current sign. Mr. Lencioni confirmed it is the same.

Dr. Smunt gave some feedback to make the wording under “Liberty” either bigger or a darker color so that it can be more easily read from afar.

**A motion was made by Mr. Pretz and seconded by Dr. Smunt with a unanimous voice vote to approve the COA as presented for 207 Illinois Ave.**

**b. 162 S 1<sup>st</sup> Street**

Mr. Nick Latko, Business representative, presented COA for an illuminated wall sign at 162 S1st Street.

**A motion was made by Mr. Pretz and seconded by Ms. Rice with a unanimous voice vote to approve the COA as presented for 162 S 1<sup>st</sup> Street.**

**c. 11-17 S 2<sup>nd</sup> Avenue**

Mr. Curt Hurst, Property Owner, presented COA to add a fabric awning to the south elevation, over the patio, at 11-17 S 2nd Avenue.

**A motion was made by Mr. Pretz and seconded by Mr. Kessler with a unanimous voice vote to approve the COA as presented for 11-17 S 2<sup>nd</sup> Avenue.**

**d. 218 Indiana Street**

Mr. Colby, Director of Community Development: Can I just provide a little bit of introduction? At a previous meeting, the Commission had made a recommendation to deny the COA request for the modifications to the plans for this building. The applicant was considering going forward to the City Council Committee to have the COA denied and reviewed, but received some feedback that there might be an opportunity to present some additional information to the commission for their consideration to see if there's a potential for compromise in changing the commission's recommendation based on some additional information that the applicant might present. As it stands today, the COA was recommended for denial, so it's up to the commission if they'd like to change their recommendation based on information that's presented this evening.

Ms. Malay: Okay. All right. If you would like to go ahead and review the changes.

Mr. Saelens, architect: Sure. I'm Brad Saelens. I'm the architect of BDS Architecture. David's here too. He's the owner and manager of the property. I'll let him talk to you about what happened at the last meeting and kind of what he is proposing for changes.

Ms. Malay: Sounds good.

Mr. Schonback, owner: After meeting with David Pietryla and Russell, it was brought to my attention the garage door, the gable, like we had spoke last time, and the corners are all issues that the HPC had. Speaking with them, like I said, from point one, you know, obviously my goal is to get the project done and figure out how we can do it to compromise between everybody. As I had spoke with them, I said things that are cost-effective that won't incur any more changes to the building, I can get a lift, go up there, and put a sunburst up in the gable like we're looking at right now. And I can rectify that. As far as the garage door goes, we can tint the windows or paint the windows black to just make it an all-black door so there's no windows in it. It would be a really good cost-effective option. And then as far as the corners go, to change the corners is going to be something like \$35,000, and I would prefer, obviously, not to do that. I think it shows depth to the building, gives a lot of architectural feature to it. I guess I'm looking for your feedback or what we should do in order to move things forward.

Ms. Malay: Do you want to say something before we go into discussion, or do you want to wait?

Mr. Saelens: Yeah, I'll just wait.

Ms. Malay: Okay. Laura, thoughts?

Ms. Rice: Yeah, I mean, I still have concerns with the corners and the garage door. I mean, I think the garage door is not the style that we had discussed in previous meetings, even very early on in your presentations to the commission. I feel like it's a very mid-century style. And I don't know that painting the windows black will make them disappear. I just feel like it's inconsistent with the conversations around the style that we had earlier.

Mr. Schonback: It's not a street-facing elevation, so I thought that would be like a compromise as to try to help the situation, like showing that I'm doing whatever I can to help the cause.

Ms. Rice: Others might have other thoughts.

Ms. Malay: Steve.

Dr. Smunt: You came to us with a great architectural design, a Greek revival. You said you did a survey of the surrounding neighborhood, and that was the predominant style of some of the older buildings. Am I correct?

Mr. Saelens: Yes, sir.

Dr. Smunt: And you gave us a rendering, and we all liked it. We thought it was a good idea, and it accomplished getting a three-floor building on an undersized lot, which you all recognize is terribly difficult. We realized you had a challenge with the development of the site, and we were trying to work with you on dimensions, on height, and then you got a variance to allow that to happen from the City. And there were a lot of compromises done right off the gate to help you get this off, but we never agreed to such a deceitful compromise on the architecture that continued, even after, I believe, you were alerted to the fact that you were in violation of the COA early on, before those corners were even done.

Mr. Saelens: The original study, we did talk about the Greek revival. Over the course of this project, we've lost that in multiple ways. I don't think that the items that are being considered today are in any way, can be related to that style that we originally came to.

Ms. Malay: But I think the point is that we approved a plan that ...

Mr. Saelens: It's been approved and changed, and there's been multiple versions approved that have lost some of those elements as well. I'm not saying that the corner boards are another element, but I'm saying that through the various approvals that have changed during the process, during construction and reconstruction, there's been a lot of those elements that have been removed from the building. To hold us to that standard still is kind of night and day.

Ms. Malay: But I think what we're trying to find...

Mr. Saelens: I agree that the elements you're talking about were not approved and that's what we're trying to do today, but to say that it's traditional Greek Revival if we do it with a solid corner board doesn't necessarily sell.

Dr. Smunt: We're not saying it was traditional Greek Revival. The elements of the Greek Revival style were embellished after this. It's a square building, and you added some elements of

architecture that were somewhat sensitive to your survey information of the surrounding neighborhood. And we were saying, you know, you're making a good-faith effort, but as soon as the contractor knew that he wasn't going to live up to those agreements, the form was changed without consulting us, in violation of the ordinance, in violation of our building permit and our certificate of appropriateness. I'm going to hold you to the fire. Hold your feet to the fire. And do what you agreed to do.

Ms. Malay: Phil.

Mr. Kessler: I concur with what I've heard so far this evening and the meeting in July of last year where the change was requested for the site, which we approved. And I was looking at the minutes a few days ago and you can access it on the city website, there was conditional approval on that COA that stated that there must be one-by-ten fascia, not fascia, frieze boards.

Mr. Schonback: ..frieze boards, because I read it. One-by-six LP corners.

Mr. Kessler: One-by-six corners.

Mr. Schonback: Yes, one-by-six.

Mr. Kessler: And there was some other elements on it. When we were in that meeting and everyone agreed on this, we said, you know, we think this siding isn't going to change. It's okay. But this was conditional with that. And so you agreed to it, and you signed it here. It's in the minutes. And that's what you were going to do. So we even said, and I think Kim asked you, that if there were going to be any changes that you would promise to come back to this, and you said yes.

Mr. Schonback: We can put the COA up on the screen and I 100% agree with this gentleman, it says one-by-ten frieze boards, you know, whatever we want to solve it.

Mr. Kessler: There were some pilasters on the original plan. On the corners, pilasters, which are essentially engaged columns of vertical.

Mr. Schonback: Oh, okay. So they're always there.

Mr. Saelens: Those elements are always there as part of the original design.

Mr. Kessler: And then that changed when you came to the siding. We said, okay, rather than this huge blank front, obviously now I can see it with the balconies on there, and it does break it up. Instead of those pilasters, we would put the intermediate one-by-six boards. And because of the type of siding, you could have used a five-quarter stock or you could have stacked something to make those with a little more shadow line.

Mr. Schonback: That is five-quarter stock sir.

Mr. Kessler: In the beginning, I was talking about that, then later I sent an email to Emma and she said she forwarded it to you where I explained all of these details because that's actually how I make my living, doing this. I understand how those things work and how they should work. I don't know if this is the same letter that we're seeing in our packet from you that's dated February 9th. In one of the versions, I'd say, I thought I saw you wrote in here that you interpreted that agreement

differently. My comment was, is going to be, you can't interpret one-by-ten as stacked corners. It doesn't work that way. One-by-ten is dimensional number. That's a set. One-by-ten, one-by-six, all of those dimensional lumber specifications are what they are. It's not up for debate.

Mr. Schonback: Does that mean vertical and horizontal dimensional 100 percent? .....horizontal and vertical, does it make it....

Mr. Kessler: Yes, then you go to the plan. Then you look at the plan, the elevation, which clearly showed the vertical corner boards, which is a Greek revival design. All of these elements, that's basically what I see as the violation. And then, as I understand it, as you already know, and I live nearby, and I was watching this, and up until this episode, I thought, wow, this is really going well. I saw the bones in the building. Everything looked good quality. And then I started to notice some things, and I notified the city. And when you started to stack the corners, I said, this isn't right. And then to understand that you were notified in person and in writing that this was not the plan, and you proceeded. You had an opportunity to not do it. I can't support your changes.

Ms. Malay: Tom?

Mr. Pretz: I really don't have anything else to add.

Ms. Malay: Commission, I think what is really on the table is, are we open to making any changes or allowances of what they proposed today? Or are we still recommending denial?

Mr. Kessler: I recommend we deny it. We ask the applicant to adhere to the agreement from July of 2025.

Dr. Smunt: I second it.

Mr. Colby: And just for clarification, you don't necessarily need a new motion in action by the commission because the existing denial recommendation stands unless the commission wants to modify it.

Ms. Malay: Is the commission in agreement with that? Just so we have an opportunity? I think it's pretty much unanimous that we would like to continue with the denial.

**No motion was made as an official motion was made on December 17, 2025.**

## **6. Grant Applications**

None.

## **7. Landmark Applications**

None

## **8. Preliminary Reviews-** Open forum for questions or presentation of preliminary concepts to the Commission for feedback

None.

## **9. Other Commission Business**

**a. Discuss and select a consultant for the resurvey**

Ms. Field and Commission discussed the options and concerns in choosing a consultant for the survey.

**10. Public Comment**

None.

**11. Additional Business and Observations from Commissioners or Staff**

**a. Administrative Approvals 3 month check in**

Ms. Field read through the list of the COAs that were approved administratively in the last three months. Commissions did not have any comments or questions.

**b. Hotel Baker Sign**

Ms. Field told the Commission she received a call about a new sign for the Hotel Baker, located on the east side of the building. The sign will be similarly lit and same size and location but potentially a different font. Ms. Field explained she is bringing this to the Commission's attention since it is a National Register Building and a prominent building in the downtown.

The Commission also discussed funding and upcoming projects for the National Register Buildings being the Arcada marquee sign and the Hotel Baker windows.

**12. Meeting Announcements: April 1st, 2026**

**13. Adjournment**

With no further business to discuss, the meeting adjourned at 8:15 P.M.
