

Freedom of Information Act

The Freedom of Information Act was enacted to allow citizens of Illinois to have access to full and complete information regarding the affairs of government and the official acts and policies of those who represent them as public officials and employees. The City of St. Charles understands the importance of providing accurate information to the public so they can be well informed regarding City operations. A well-informed community will help the City to better serve their residents.

The City operates under the mayor-council form of government. It is divided into five wards, each ward being represented by two elected representatives (alderpersons). The Mayor is elected "at large." Together, the Mayor and City Council serve as the policy-making body of the City. They perform such functions as passing resolutions and ordinances, approving the expenditure of money, levying taxes, approving subdivisions, zoning, and other land use regulations; and generally deciding on important issues that affect the City of St. Charles.

The City Administrator, who is appointed by the Mayor with the advice and consent of the City Council, is responsible for all aspects of administration, financial planning, directing, and supervising City operations. Department directors, who are appointed by the Mayor with recommendation of the City Administrator and the consent of the City Council, guide the activities of their respective operating departments. The department directors are charged with the responsibility of implementing City Council policy, maintaining operations, conducting research, and providing information on important issues to the City Council.

City Mission Statement

We provide exceptional Services, honor Tradition, and foster a thriving Community.

FOIA Officers

General Requests:

Jackie Uhler
