Subject: Notification Letter for S. 19th Street & Walnut Drive Water Main Improvements

Dear Resident:

The City of St. Charles will undertake a water main improvement project on South 19th Street and Walnut Drive beginning on Monday, April 14. The project consists of the installation of new water main along the west side of South 19th Street from Main Street to Walnut Drive, and along the north side of Walnut Drive 200 feet to the west. The scope of work includes the replacement of water services and fire hydrants, areas of curb and sidewalk replacement, and parkway restoration. The project is scheduled to be complete by Friday, May 23 weather permitting.

The installation of the new water main should be completed in approximately one week. There will be additional work required after the installation in order to test the main, connect water services to the main and repair curbs, sidewalks and parkways.

Temporary shut off of water service will occur as needed. Residents will be notified prior to water shut-off (unless an emergency situation occurs) giving the approximate time and length anticipated for the shut off.

Driveway access will be available each evening. However there may be times during construction when driveway access will be temporarily blocked. Residents will be notified prior to their driveway being blocked in order to minimize the inconvenience.

The City appreciates your continued cooperation and patience during this project. If you have any questions, please feel free to contact me at (630) 443-3709 or via email: jbernahl@stcharlesil.gov. Gary Long, the on-site Engineering Inspector, is also available by calling (630) 327-5884. Please direct all questions or concerns to either myself or to Mr. Gary Long.

I would like to thank you for all of your help and understanding throughout this construction project, and we look forward to serving you in the future.

Sincerely,

James J. Bernahl, P.E., CFM
Public Works Engineering Division Manager
