**SIKICH.COM**

The Honorable Mayor  
Members of the City Council  
City of St. Charles, Illinois

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of St. Charles, Illinois (the City) as of and for the year ended April 30, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis.

This communication is intended solely for the information and use of management, the Mayor, the City Council, and others within the City of St. Charles and is not intended to be, and should not be used by anyone other than these specified parties.

*Sikich LLP*

## **OTHER COMMENTS**

### **Future Accounting Pronouncements**

The Governmental Accounting Standards Board (GASB) has issued a number of pronouncements that may affect the City in the future:

GASB Statement No. 83, *Certain Asset Retirement Obligations*, addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The requirements of this standard are effective for the fiscal year ending April 30, 2020.

GASB Statement No. 84, *Fiduciary Activities*, establishes criteria for identifying fiduciary activities. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. The requirements of this standard are effective for the fiscal year ending April 30, 2020.

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset and aims to enhance comparability of financial statements among governments. This statement also requires additional notes to the financial statements related to the timing, significance, and purpose of a government's leasing arrangements. The requirements of this statement are effective for the fiscal year ending April 30, 2021. Earlier application is encouraged.

GASB Statement No 88, *Certain Disclosures Related to Debt*, including Direct Borrowings and Direct Placements, was issued in March 2018 and provides guidance on improving disclosures in the notes to the financial statements related to debt, including direct borrowings and direct placements of debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. This statement is effective for fiscal years ending April 30, 2020.

## **OTHER COMMENTS (Continued)**

### **Future Accounting Pronouncements (Continued)**

GASB Statement No. 90, *Majority Equity Interests*, an amendment of GASB Statements No. 14 and No. 61), intends to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The Statement defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. This Statement also establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. The requirements of this Statement are effective for the fiscal year ending April 30, 2020.

GASB Statement No. 91, *Conduit Debt Obligations*, which intends to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for the fiscal year ending April 30, 2022.
