

CITY OF ST. CHARLES RESIDENTS

WE ARE EXCITED TO WELCOME YOU TO OUR GROWING FAMILY!

Starting July 1, 2018 you will see a new waste and recycling hauler servicing all homes in the City of St. Charles. As part of the City's new agreement with Lakeshore Recycling Systems (LRS), you will see a considerable reduction in the cost of refuse/yard waste stickers. Your new rate for the first year is **\$2.60 per sticker**.

There will be no changes to your current service day (Monday or Tuesday). All residents will receive a 65-gallon recycling cart at no cost regardless of the refuse service selected. The recycling cart can be exchanged for a smaller or larger size upon request after the start of the new contract.

For those residents with subscription cart service for their waste, LRS plans on providing you with the same size cart that you currently have at a lower price. Below is a list of the first year subscription pricing (visit the City's website for the full contract's price outline).

35-gallon cart	=	\$17.25 per month
65-gallon cart	=	\$18.25 per month
95-gallon cart	=	\$19.25 per month

Because of the City's change of haulers, **it is recommended that you only purchase enough Advanced Disposal stickers to last through the month of June**. LRS will have a limited collection opportunity (30 days) to honor these previously used Advanced Disposal stickers until **July 30, 2018**.

We know the residents of the City of St. Charles have high expectations when it comes waste and recycling services. LRS is proud of our sustainability mission and spreading that within your community. We look forward to exceeding these expectations, and becoming a part of this wonderful City.

Please don't hesitate to reach out to us at **630.581.8650** or **StCharles@LRSrecycles.com** if you have any questions regarding this new service. We look forward to working with you!

WELCOME TO OUR LAKESHORE RECYCLING SYSTEMS FAMILY!

LEARN MORE ABOUT YOUR NEW WASTE AND RECYCLING PARTNER

Serving northern Illinois for nearly 20 years and headquartered in Morton Grove, Illinois (30 minutes from downtown Chicago), Lakeshore Recycling Systems (LRS) is the Midwest's leading recycling and waste diversion services provider.

LRS not only provides recycling and waste diversion program to businesses and residential homeowners similar to your City but also many temporary services. These expansive services include portable restroom rentals, roll-off dumpster rentals, street sweeping, mulch and on-site storage.

LRS operates nearly 10 facilities, a fleet of over 400 fuel-efficient vehicles, and is run by nearly 780 committed full-time employees.

LRS is a recipient of the 2017 Illinois Sustainability Award, the 2018 Annual Awards for Business Excellence in the category of Innovation in Business and ranked the Best and Brightest Companies to Work For® in both Chicago and the Nation for the past three years.

Controlling over 2.3 million tons-per-year, LRS is committed to raising awareness for a more environmentally sustainable business model. It is part of LRS' corporate mission to operate without owning landfills and fostering discussion on the importance of recycling to provide a sustainable business model.

LRS' core dedication to safety, community involvement and providing innovative waste and recycling solutions to customers is what sets LRS apart from other waste haulers as an industry leader.
