

 <p>CITY OF ST. CHARLES ILLINOIS • 1834</p>	AGENDA ITEM EXECUTIVE SUMMARY		Agenda Item number: *5.F
	Title:	Recommendation to Approve a Resolution to award the bid for Electrostatic Painting Services to BP&T Construction	
	Presenter:	AJ Reineking	
Meeting: Government Services Committee		Date: April 24, 2023	
Proposed Cost: \$ <i>up to 40,000</i>		Budgeted Amount: \$40,000	Not Budgeted: <input type="checkbox"/>
TIF District: Choose an item.			
Executive Summary (if not budgeted, please explain):			
<p>The Public Works Department maintains the streetscape throughout the downtown area, including functional and decorative steel items such as benches, garbage cans, light poles, and guardrails. These items must be painted periodically to enhance the longevity of their useful life.</p> <p>In 2016, the Department piloted a program in which a contractor would grind and use an electrostatic painting process to protect and visually enhance the steel surfaces in the downtown streetscape. The process proved to be extremely successful as there was no need to remove the items from the downtown area, there was no concern of overspray, and the finished product looked much better than a typical brushed and rolled paint job.</p> <p>This electrostatic painting program has been built upon over the last seven years and was bid again for the 2023 construction season. Unit prices were solicited for painting the various street lights, benches, guardrails and garbage cans throughout the downtown area. The City received five responses to this bid with BP&T Construction of Arlington Heights, IL submitting the lowest responsive bid for a fixed rate, one-year contract ending April 30, 2024.</p> <p>BT&T Construction performs similar work for other communities in the Chicagoland area, and completed process demonstrations to verify their workflow for City staff. In this trial, they performed well and provide a finished product that meets the City's expectations.</p>
