Dr. Smunt asked is the color of the proposed coping the same color as what is used on the north elevation? Color should at least match.

Mr. Kessler asked if the coping will be the same design and shape as what is currently on the north elevation?

Commission discussed that the new coping should match the style and color of existing metal roof on the north elevation.

a. 17 N 2nd Ave.

Ms. Hitzmann presented Façade Improvement Grant requested by Ms. Nancy Knapp.

Commission discussed some items may not be eligible for funding but the amount of work that will be done exceeds the amount of funding.

Mr. Pretz asked if the work would be done by a single contractor. Ms. Knapp responded that yes, it would be one contractor.

Dr. Smunt questioned the material to be used on the fence repair.

Ms. Malay stated concern on the wording of the request sounds as the windows will be replaced rather than repaired.

Property Owner, Ms. Nancy Knapp, advised she is not going to replace anything that doesn't need to be replaced.

Ms. Malay advised it would best to amend to read repair and restore existing wood windows.

Mr. Pretz stated the Commission could go out to the property and meet with the contractor.

Dr. Smunt added in lieu of the scope of this project, recommendation to table and schedule a site visit to see all the areas of concern and Commission could share their thoughts and have a better understanding of what needs to be done.

A motion was made by Dr. Smunt and seconded by Dr. with a unanimous voice vote to table approval of the Façade Grant to the Planning and Development Committee until a site visit could be set up with the Historic Commission members.
