

Treasurer's Report
October 31, 2021

MONTHLY COUNCIL TREASURER'S REPORT For The Period Ending October 31, 2021

Overview

The attached report is a summary of City financial activity from the beginning of the fiscal year through the above date. It is meant to provide adequate information in a form easily readable for members of the City Council to understand the financial status of the City. Definitions of the various report components are shown at the end of the report.

Budget Philosophy

The City budgeting philosophy is that the budget is not a static plan, but a working plan that must be routinely monitored and adjusted as new opportunities develop, prior projections do not materialize, or priorities change. Revisions are always made in the light of maintaining adequate cash surpluses, in accordance with City policies, and not making revisions that will severely hamper future years' operations.

Report Format

The report shows each fund summarized by major categories of revenues and expenditures. Year-to-date and annual projections show where we are today and where we expect to be at the end of the fiscal year. Each column provides meaningful information when compared with other columns. For instance, differences between the revised budget column and forecast column should be noted. The forecast is a calculated projection and the revised budget is a formal budget adjustment. Any material differences between the two should be investigated.

Comments

Property Taxes, General Fund - Generally, we collect approximately 99% of the levy request.

Sales Tax, General Fund - Sales Tax from retailers are received 90 days after the date of sale. Sales tax receipts year to date were higher than anticipated, making receipts \$878,117 higher than proposed budget.

Franchise Fees, General Fund - Actual receipts are \$8,191 lower than the proposed budget.

Income Tax, General Fund - Actual receipts are in line with the projected year to date budget. These receipts are subject to changes in the economy and can fluctuate from projections.

Hotel Tax, General Fund - Actual receipts are \$660,325 higher than the proposed budget.

Intergovernmental Revenue, General Fund - This line includes all Federal and State grants as well as replacement tax.

User Charges, All Funds - Revenue from user charges for the year are \$1,711,924 lower than the projected year to date budget. These revenues can fluctuate with weather, particularly during the summer months.

Personal Services, All Funds - Personal Services are lower than the year to date budget projection for the year. This is due to the timing of new hires, retirements, vacancies and employer pension contributions.

Operating Expenses, All Funds - Operating expenses overall are lower than the budget projection for the year. This is due primarily to timing differences.

Capital Expenditures, All Funds - Capital variances are monitored by the department on a quarterly basis. Due to the nature of large expenditures, a specific date of purchase is sometimes difficult to predict.

Definitions

Reporting Periods - The report shows information for two broad reporting periods, year-to-date (YTD) and annual. Year-to-date is an indication of the status from the beginning of the fiscal year through the period being reported. Under this YTD category, three sub-categories are shown. Annual projections show the entire fiscal year and are also broken down into three categories.

Actual - The amount of money actually received or expended from the beginning of the fiscal year (May 1) through the period being

Budget - The revised budget from the beginning of the fiscal year through the period shown.

Last Year - The amount of money actually received or expended last fiscal year for the same months shown under "actual".

Original Budget - The amount originally budgeted and approved by the City Council for the fiscal year in April.

Revised Budget - This is the budget resulting from changes to the original budget. It reflects the most recent formal review and reflects the revisions approved periodically by the City Council.

Forecast - The forecast shows a projection determined by adding the amount actually received or expended to date, plus the months remaining of the revised budget after the period being reported, i.e. annual revised budget - YTD budget + actual.

Permanent Variance - A variance between the budget and forecast which will be permanent and not corrected at a later date.

Timing Variance - A variance between the budget and forecast which will be corrected at a later time during the fiscal year.

John Harrill, Treasurer

Investment Summary

October 31, 2021

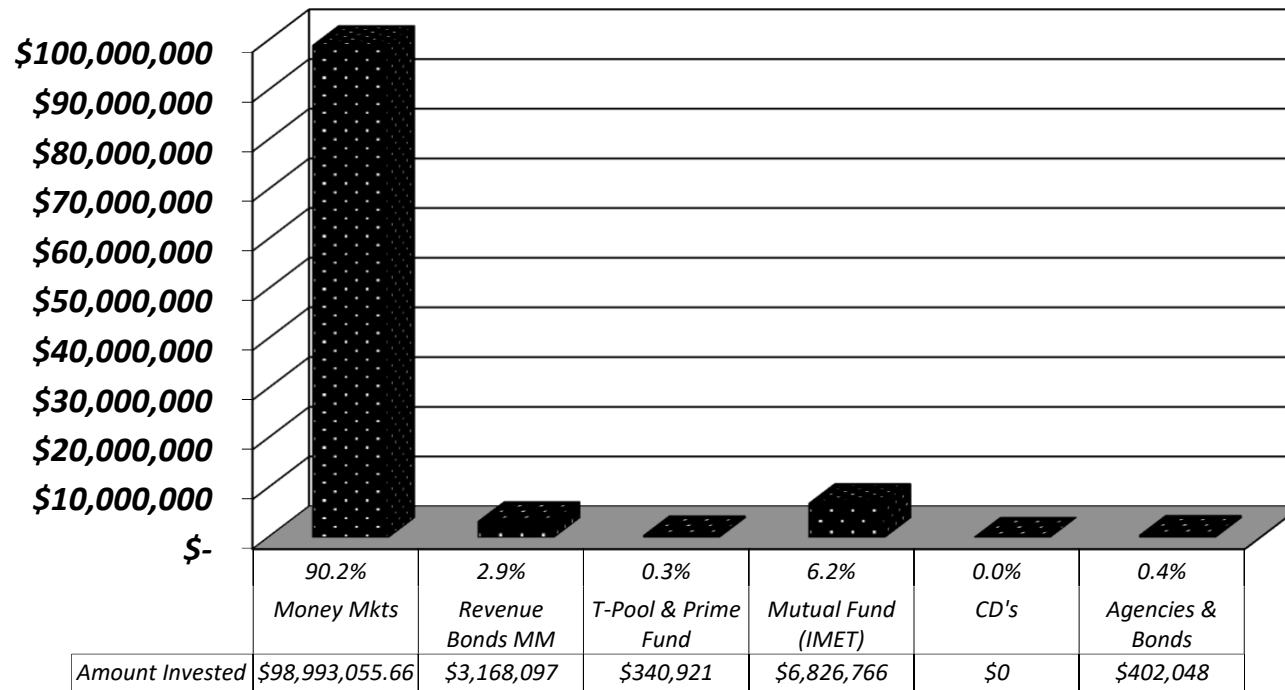

City of St. Charles Investment Portfolio Earnings Comparison

The chart above displays the return on investments for the City of St. Charles portfolio by fiscal year. The current fiscal year return is computed from May 1 to the current month end. We are comparing the City's return to the average return on the 6 month T-Bill for the same period of time. The City invests in some longer term securities in order to maximize returns. Historically, the City has proven to prevail with this type of philosophy. During sharp rises in interest rates, the City's portfolio may not seem to perform as well, but over time, when combined with the higher returns, the City still comes out ahead. This graph does not include any pension funds.

City of St. Charles Investment Portfolio by Type - October 31, 2021

The chart above displays the City of St. Charles investment portfolio by type of investment. As shown the portfolio is distributed among several investment types. US Treasuries include Treasury Bills, Treasury Notes, Zero Coupon Bonds and Treasury Bonds. The City invests in US Agencies which are government agencies such as Federal Home Loan Bank and Farm Credit Bank. These yield a higher return than treasuries and afford government protection. Money is invested in the Treasurer's Pool, IMET, Commercial Paper and Certificates of Deposit. The City tries to maintain a diversified portfolio to maximize return yet, most importantly, to preserve principal. This chart is only the City's main portfolio and bond investments. Revenue Bonds money markets are held by Amalgamated Bank in Chicago for investment for that bond issue. This chart does not include pension funds.

City of St. Charles Investment Portfolio Composition - October 31, 2021

The chart above displays the aging of the City of St. Charles investment portfolio. A portion of the City's money is invested in U.S. Agencies, the Treasurer's Pool, commercial paper, collateralized certificates of deposit, as well as IMET (the intergovernmental mutual fund). The City's portfolio is also inflated by bond proceeds which must remain short term to cover construction payouts. The City does invest in some long term securities for capital gains purposes. However, according to policy that amount does not exceed 9% of cost. Timing maturities is very important for the City. We need to allow for cash flow yet maximize return by investing in longer maturities which typically earn a higher yield. Investment maturities are "laddered" as much as possible, to allow for any unforeseen expenditure. The City does not invest funds for the police and fire pension funds, therefore they are not part of this chart.
