Another important thing to note is that the Fire Department (377-4457), Police Department (377-4435), and Tri-Com (911 Dispatch Center, 232-4739) all require information about building ownership, business ownership, business managers, after hours emergency call numbers, and emergency notification personnel. It is vital that the information is current in case of emergency.

This pamphlet is offered as a guideline and is not all inclusive.

Please contact the Fire Prevention

Bureau (377-4457) and/or the

Building and Zoning (377-4406) for specifics.

CITY OF ST. CHARLES

Before You Open A Business

Things you should know about
fire code requirements

**St. Charles Fire Department,
Fire Prevention Bureau**

Tel: 630-377-4457

For Your Information

The City of St. Charles has

adopted certain Building and Fire Prevention Codes to enhance and maintain the safety of all commercial buildings in the community. Following are guidelines to help you determine what is required by the **Fire Prevention Bureau** in order to gain occupancy. These guidelines address new tenants, change of use*, remodeling, additions, and new buildings. These items must be met before your establishment can open for business. For specifics, please contact the Fire Prevention Bureau at (630) 377-4457.

SPECIAL NOTE: Building permits are required for any structural changes totaling \$100.00 or more. Building plans are to be submitted to the Building and Zoning Department. If you have any questions as to whether a building permit is required, please contact the Building and Zoning Department at (630) 377-4406.

*A change of use for fire and building code purposes is different from a zoning use. Use Groups for our purpose determines the type of fire protection required; they include Business, Mercantile, Assembly, Storage, Factory, etc. For example, if a building had a retail tenant (mercantile) and a new tenant's business would be an office (business), this would be a change of use.

Change of Tenant—no changes to building, no change of use

Check for:

- Fire extinguishers
- Exit lights
- Emergency lights
- Working fire alarm system (if exists)
- Door locks
- Any other code requirements

Change of Tenant—no changes to building, but change in use

Review building's safety provisions to determine what is needed, if anything. This could include the installation or upgrade of a fire alarm system, sprinkler system, fire extinguishers, exit and emergency lighting, door hardware, additional exits, etc.

Remodel of existing building—new tenant or same tenant, building permit required

Before Permit is Issued:

A complete plan review of architectural plans is required. This review would include building construction type, use group, size of structure, fire separation, fire protection requirements, exit and emergency lighting, storage arrangements (if any), occupancy load, etc.

After Permit is Issued, But Before Final Occupancy Inspection:

All items noted on the plan review must be addressed. If modifications are necessary to the fire alarm and/or sprinkler system, plans are required to be submitted for review and approval.

Acceptance tests of the fire alarm system and hydrostatic tests of the sprinkler system are required before final occupancy inspection.

New Building or Additions—Building Permit Required

Before Permit is Issued:

A complete plan review of architectural plans is required. This review would include building construction type, use group, size of structure, fire separations, fire protection requirements, exit and emergency lighting, storage arrangements (if any), occupancy load, etc.

After Permit is Issued, But Before Final Occupancy Inspection:

All items noted on the plan review must be addressed. If a fire alarm and/or sprinkler system is required, plans are required to be submitted for review and approval. A full diameter flush and hydrostatic test of the underground water supply for the sprinkler system is required before connection to the city water supply and the aboveground system. Acceptance tests of the fire alarm system and hydrostatic tests of the sprinkler system are required to be performed before scheduling the final occupancy inspection.
