Title:

Recommendation to Award the Bid for Liquid Sludge Dewatering

Presenter:

Tim Wilson

Meeting: Government Services Committee

Date: July 20, 2020

Proposed Est. Cost: \$47,600

Budgeted Amount: \$50,000

Not Budgeted:

**Executive Summary** *(if not budgeted please explain):*

The City of St. Charles requested proposals for Liquid Sludge Dewatering at our Westside Treatment Plant. The work includes having sludge dewatered and trucked to our sludge storage pad at the Westside Treatment Plant. Work will be performed twice, in summer and winter of 2020. Estimated gallons will be in the range from 200,000 to 400,000 each time. All work will be contracted on a per gallon basis.

The City received five bids for Liquid Sludge Dewatering on June 23, 2020. Currently there are only three firms in Northern Illinois that offer this service. Gullett Sanitation Services, the lowest bidder, is based out of Ohio. Gullett Sanitation has provided the City with the same services during the 2019 fiscal year. Based on the low bid and the service provided to the City in the past, Staff recommends awarding the contract to Gullett Sanitation.

The unit cost provided in the bid of \$0.0595 per gallon is just above the current unit cost paid by the City for the last year. The Wastewater Division spends approximately \$50,000 annually on sludge dewatering at the Westside wastewater plant. The actual dewatered amount is dependent on seasonal wet weather and customer usage.
