

**AGENDA ITEM EXECUTIVE SUMMARY**

**Agenda Item Number: 4b**

**Title:**

Plan Commission recommendation to approve a Map Amendment for 1001 N. 5<sup>th</sup> Ave.

**Presenter:**

Ellen Johnson

**Meeting:** Planning & Development Committee

**Date:** August 10, 2020

Proposed Cost: \$

Budgeted Amount: \$

Not Budgeted:

**Executive Summary** (if not budgeted please explain):

The subject property is located at the northwest corner of N. 5<sup>th</sup> and Delnor Avenues. The property is comprised of two parcels:

- Parcel 1: 11,435 sf – Vacant land fronting Delnor Ave.
- Parcel 2: 15,796 sf – Contains a single-family home constructed in 1925.

The parcels are zoned RS-1 Low-Density Suburban Single-Family Residential (18,000 sf min. lot size).

Jeffrey Johnson, applicant, is seeking approval of a Zoning Map Amendment to rezone the property to the RS-2 Suburban Single-Family Residential District (11,000 sf minimum lot size).

The applicant intends to rehab the existing home on Parcel 2 and make available Parcel 1 for construction of a single-family home. Parcel 1 is not a buildable lot under the existing RS-1 zoning due to its lot size. Rezoning to the RS-2 district would enable development of a home on Parcel 1, and would also bring Parcel 2 into compliance with zoning standards.

The Comprehensive Plan land use designation for the property is Single-Family Detached Residential.

**Plan Commission Recommendation**

Plan Commission held a public hearing on July 7, 2020 which was continued to July 21 and August 4. During the hearing, concerns were expressed by the neighboring property owner adjacent to the west (300 Delnor Ave.). In response to the neighbor’s concerns, the applicant stated a willingness to provide a 25 ft. setback from the west property line, in excess of the 6 ft. setback required in the RS-2 district. The neighbor indicated that this setback restriction was not sufficient to address his concerns and stated that the applicant had not provided an adequate opportunity to discuss an agreement.

Plan Commission voted 7-2 to recommend approval, subject to requiring a 25 ft. setback from the west lot line. A legal document will need to be prepared by the applicant memorializing this lot development restriction. The document would need to be recorded with Kane County prior to City Council approval of the Map Amendment. This document has not been provided. The setback restriction is not enforceable without such document being recorded against the property.

**Property Owner Protest**

The property owner to the west (300 Delnor Ave.) has filed a written protest against the Map Amendment under Section 17.04.320. Per this section, if a written protest is signed by the owners of at least 20% of the owners adjacent to the subject property, the Map Amendment shall require a favorable vote of 2/3 of the City Council in order to pass. There are three properties adjacent to the subject property. The objection from one of the three property owners constitutes over 20% of the adjacent owners.

Staff has asked the property owner to the west to clarify his position, given the Plan Commission recommendation.

Plan Commission Resolution, Staff Report, Application

**Recommendation/Suggested Action** (*briefly explain*):

Plan Commission recommendation to approve a Map Amendment for 1001 N. 5<sup>th</sup> Ave.

**City of St. Charles, Illinois**  
**Plan Commission Resolution No. 14-2020**

**A Resolution Recommending Approval of a Zoning Map Amendment for  
1001 N. 5<sup>th</sup> Ave. (Jeffrey Johnson)**

**Passed by Plan Commission on August 4, 2020**

WHEREAS, it is the responsibility of the St. Charles Plan Commission to hold public hearings and review requests for Zoning Map Amendments; and,

WHEREAS, the Plan Commission has held a public hearing and has reviewed the petition for Zoning Map Amendment for 1001 N. 5<sup>th</sup> Ave. (Jeffrey Johnson); and,

WHEREAS, in accordance with Section 17.04.320.D, the Plan Commission has considered the following findings for Zoning Map Amendment:

**FINDINGS OF FACT FOR MAP AMENDMENT**

**1. The existing uses and zoning of nearby property.**

The properties surrounding the subject property are zoned RS-1 on the north, east, and west sides, and all appear to be single family uses. The property to the southeast is zoned OR and is occupied by the St. Charles Episcopal Church. The property to the south is zoned RM-2, is listed as a Planned Unit Development, and is occupied by Delnor Assisted Living.

**2. The extent to which property values are diminished by the existing zoning restrictions.**

The property values of the subject properties are greatly reduced by the current zoning, because even though there are two tax parcels, both individual tax parcels are below the 18,000 square foot minimum lot size, creating a non-conforming use on the existing house parcel, and an unbuildable lot on the vacant parcel next door. If the two parcels are both rezoned to RS-2, our research leads us to believe that the market value of the bare land alone on each individual parcel would be \$120,000, or \$240,000 for both. The current listed asking price for both parcels is \$185,000, including the improvements on one parcel.

**3. The extent to which the reduction of the property's value under the existing zoning restrictions promotes the health, safety, morals or general welfare of the public.**

Because the current zoning of the subject properties does not allow the more western parcel to be built on, it may facilitate a picture of large and open lots in the neighborhood, though in their current overgrown and dilapidated state, we believe this effect is minimal.

In their current state, we do not believe that the subject properties create any real value to the public.

**4. The suitability of the property for the purposes for which it is presently zoned, i.e. the feasibility of developing the property for one or more of the uses permitted under the existing zoning classification.**

The properties are currently not suitable for the purposes for which they are zoned. A single-family residential use is appropriate, however the existing RS-1 zoning does not make development feasible, and creates a non-conforming use of the existing house. The subject properties can not be used for any of the uses currently permitted, because of the current zoning.

**5. The length of time that the property has been vacant, as presently zoned, considered in the context of the land development in the area where the property is located.**

As far as we were able to discern, the western parcel has always been vacant. It is one of very few remaining vacant parcels in this highly desirable area of St. Charles.

**6. The evidence, or lack of evidence, of the community's need for the uses permitted under the proposed district.**

With the proposed RS-2 zoning, the use of the parcels will remain single-family residential. The neighborhood in which the properties are located is highly desirable, and home prices have steadily risen, proving a demand for more quality housing stock. Additionally, the change in zoning is the only thing that would make it make sense financially to restore the existing 1925 house to its former glory, creating an attractive entrance into downtown St. Charles along Rt. 25.

**7. The consistency of the proposed amendment with the City's Comprehensive Plan.**

The Comprehensive Plan dated 2013 recommends the following for detached single-family residential neighborhoods: "The City should investigate new methods to improve the conditions of all residential neighborhoods, including maintenance programs and incentives for developing vacant properties, while continuing to enforce building and design codes, regulations, and standards." The proposed RS-2 zoning will make it financially feasible for us to restore the 1925 house, therefore improving the condition of the neighborhood and bringing another house up to code. It will also allow for the future development of a single-family home on the vacant property.

**8. Whether the proposed amendment corrects an error or omission in the Zoning Map.**

To our knowledge, the current RS-1 zoning of the subject properties is not the result of an error or omission.

**9. The extent to which the proposed amendment creates nonconformities.**

The proposed amendment to the zoning map does not create any nonconformities. In fact, it corrects one, as the existing house is nonconforming under the current zoning.

**10. The trend of development, if any, in the general area of the property in question.**

There is a trend of development and improvement in the area. On the northern end of the same block as the subject properties, there are two homes that have recently been extensively rehabbed, and it appears that there is at least one custom home lot available from a local homebuilder.

NOW, THEREFORE, be it resolved by the St. Charles Plan Commission to recommend to the City Council approval of a Zoning Map Amendment from RS-1 Low Density Suburban Single-Family Residential District to RS-2 Suburban Single-Family Residential District for 1001 N. 5<sup>th</sup> Ave. (Jeffrey Johnson).

Roll Call Vote:

Ayes: Holderfield, Pretz, Melton, Wallace, Kessler, Purdy, Melton

Nays: Becker, Vargulich

Absent:

Motion carried: 7-2

PASSED, this 4<sup>th</sup> day of August 2020.

## II. OVERVIEW

### A. BACKGROUND

The subject property is located at the northwest corner of N. 5<sup>th</sup> and Delnor Avenues. The property is comprised of two parcels:

- Parcel 1: 11,435 sf – Vacant land fronting Delnor Ave.
- Parcel 2: 15,796 sf – Contains a single-family home constructed in 1925 at the corner of N 5<sup>th</sup> and Delnor Avenues, fronting on N 5<sup>th</sup> Ave.

The parcels are zoned RS-1 Low-Density Suburban Single-Family Residential. The minimum required lot size in the RS-1 district is 18,000 sf.

### B. PROPOSAL

Jeffrey Johnson, applicant, is seeking approval of a Zoning Map Amendment to rezone the property to the RS-2 Suburban Single-Family Residential District (11,000 sf minimum required lot size).

The applicant is under contract to purchase the property. He plans to rehab the existing home on Parcel 2 and make available Parcel 1 for construction of a single-family home. Parcel 1 is not a buildable lot under the existing RS-1 zoning due to its lot size. Rezoning to the RS-2 district would enable development of a home on Parcel 1, and would also bring Parcel 2 into compliance with zoning standards.

A plat of survey has been submitted which shows a potential building footprint on Parcel 1.

## III. ANALYSIS

### A. COMPREHENSIVE PLAN

The Land Use Plan adopted as part of the 2013 Comprehensive Plan identifies the subject property and surrounding neighborhood to the north, east, and west as Single-Family Detached Residential.

The proposed rezoning would retain the intended single-family land use.

### B. ZONING

#### Existing Zoning:

The subject property is zoned RS-1 Low Density Suburban Single-Family Residential. The RS-1 district is described in the Zoning Ordinance as follows:

*The purpose of the RS-1 district is to accommodate low density single-family residential development in the City. The minimum lot size in this district is 18,000 sf.*

RS-1 zoning is interspersed throughout the City, encompassing subdivisions including part of Aintree, Royal Fox, The Timbers, Redgate, and The Reserve, platted in the 1970s-2000s. RS-1 zoning also covers the neighborhood north of the subject property, most of which was platted in the 1950s.

**Proposed Zoning:**

Proposed zoning of the subject property is RS-2 Suburban Single-Family Residential. The RS-2 district is described in the Zoning Ordinance is as follows:

*The purpose of the RS-2 district is to accommodate low to medium density single-family residential development in the City. This district primarily consists of post-World War II residential neighborhoods that have a suburban character. The minimum lot size in this district is 11,000 sf.*

RS-2 zoning exists predominately on the northeast side of town. Parts of Royal Fox, Majestic Oaks, Kingswood, and Charlemagne are zoned RS-2, as well as Hunt Club and Surrey Hill. These subdivisions were platted in the 1960s-1990s.

**Surrounding Zoning:**

The subject property sits on the south end of a neighborhood zoned RS-1; adjacent properties to the north, east and west have this zoning. The River Glen Assisted Living facility directly south is zoned RM-1 (mixed residential). To the southeast, St. Charles Episcopal Church is zoned OR (office/research).

While the single-family properties northeast and west of the subject property are zoned RS-1, a number of these parcels, particularly those fronting N. 5<sup>th</sup> Ave., do not meet the minimum lot size in the RS-1 district (18,000 sf), similar to the subject property. These parcels would meet the RS-2 lot size requirement (11,000 sf). The aerial image below shows conforming (green) vs. non-conforming (red) lots in the blocks adjacent to the subject property. The presence of these undersized parcels in the vicinity provides a precedent for single-family homes constructed on lots smaller than 18,000 sf.

**Bulk Standards:**

The table below lists the bulk standards applicable to the RS-1 (current zoning) and RS-2 (proposed zoning) districts compared to Parcels 1 and 2. A plat of survey depicting a conceptual building footprint has been provided by the applicant as an example of what could be constructed on the lot if rezoned to the RS-2 district. The lot dimensions of Parcel 1 and the potential building footprint meet the bulk standards of the RS-2 district.

The existing lot dimensions and house on Parcel 2 are non-conforming to the lot area, lot width, exterior side yard, and rear yard standards of the current RS-1 zoning. Rezoning to the RS-2 district would bring this parcel into zoning compliance.

	<b>Current Zoning: RS-1 District</b>	<b>Proposed Zoning: RS-2 District</b>	<b>Parcel 1 (new house)</b>	<b>Parcel 2 (existing house)</b>
<b>Min. Lot Area</b>	18,000 sf	11,000 sf	11,435 sf	15,796 sf
<b>Min. Lot Width</b>	100 ft.	80 ft.	90 ft.	94 ft.
<b>Max. Building Coverage</b>	20%	25%	Approx. 16%	10%
<b>Max. Building Height</b>	35 ft. / 2 stories, whichever is less	35 ft. / 2 stories, whichever is less	TBD	2 stories
<b>Min. Front Yard</b>	40 ft.	30 ft.	40 ft.	57.8 ft.
<b>Min. Exterior Side Yard</b>	40 ft.	30 ft.	N/A	36.6 ft.
<b>Min. Interior Side Yard</b>	10 ft.	Combined width of 16 ft., neither less than 6 ft.	20 ft.	41.5 ft.
<b>Min. Rear Yard</b>	50 ft.	40 ft.	40 ft.	45 ft.

**C. SUBDIVISION**

Staff has determined that a Plat of Subdivision will not be required to allow a house to be constructed on Parcel 1. Section 16.02.020 states the following:

*Lots of Record that were lawfully conveyed prior to September 17, 2012 that meet the minimum lot width and area requirements of the applicable zoning district in which it is located shall be considered valid lots for the purposes of this title.*

The two subject parcels were conveyed separately, to the same party (the current property owner), in 2008. Should the Map Amendment be approved, the parcels will meet the minimum lot width and lot area requirements, therefore meeting the standards to be considered valid lots. As valid lots, subdivision would not be required.

**IV. PLAN COMMISSION RECOMMENDATION**

Plan Commission held a public hearing on July 7, 2020 which was continued to July 21 and August 4. During the hearing, concerns were expressed by the neighboring property owner adjacent to the west of the vacant parcel (300 Delnor Ave.). In response to the neighbor’s concerns, the applicant stated a willingness to provide a 25 ft. setback from the west property line, in excess of the 6 ft. setback required in the RS-2 district. The neighbor indicated that this

setback restriction was not sufficient to address his concerns and stated that the applicant had not provided an adequate opportunity to discuss an agreement.

On August 4, Plan Commission voted 7-2 to recommend approval, subject to requiring a 25 ft. setback from the west lot line.

A legal document will need to be prepared by the applicant memorializing this lot development restriction. The document would need to be recorded with Kane County prior to City Council approval of the Map Amendment. This document has not been provided. The setback restriction is not enforceable without such a document being recorded against the property.

**Zoning and Use Information:**

Comprehensive Plan Land Use Designation of the property: Single Family Residential

Current zoning of the property: RS-1

Is the property a designated Landmark or in a Historic District? No

Current use of the property: Single Family Residential

Proposed zoning of the property: RS-2

Proposed use of the property: Single Family Residential

If the proposed Map Amendment is approved, what improvements or construction are planned? (An accurate site plan may be required to establish that the proposed improvement can meet the minimum zoning requirements)

A full rehab is planned of the existing house. No construction is currently planned for the vacant lot, however amending the zoning would allow for the future construction of a single family home, as shown on attached plat

***Attachment Checklist***

- APPLICATION:** Completed application form signed by the applicant.
- APPLICATION FEE:** Application fee in accordance with Appendix B of the Zoning Ordinance.
- REIMBURSEMENT OF FEES AGREEMENT:** An original, executed Reimbursement of Fees Agreement and deposit of funds in escrow with the City, as provided by Appendix B of the Zoning Ordinance.
- PROOF OF OWNERSHIP and DISCLOSURE:**
  - a) A current title policy report; or
  - b) A deed and a current title search.

If the owner is not the applicant, an original letter of authorization from the owner permitting the applicant to act on his/her behalf is required. If the owner or applicant is a Trust, a disclosure of all beneficiaries; if the owner or applicant is a Partnership, a disclosure of all partners; if the owner or applicant is a Corporation, a disclosure of all owners with an interest of at least ten percent (10%).

- LEGAL DESCRIPTION:** For entire subject property, on 8 ½ x 11 inch paper
- PLAT OF SURVEY:**

A current plat of survey for the Subject Realty showing all existing improvements on the property, prepared by a registered Illinois Professional Land Surveyor.

- SITE PLAN:**  
Simple site plan drawn to scale to demonstrate that the property can meet the requirements of the proposed zoning district (parking requirements, setbacks, landscaping, etc.)

- SOIL AND WATER CONSERVATION DISTRICT APPLICATION:**  
Copy of completed Land Use Opinion application as required by state law, as submitted to The Kane-Dupage Soil and Water Conservation District. <http://www.kanedupageswcd.org/>

□ **ENDANGERED SPECIES REPORT:**

Copy of Endangered Species Consultation Agency Action to be filed with the Illinois Department of Natural Resources. <http://dnrecocat.state.il.us/ecopublic/>

# FINDINGS OF FACT SHEET – MAP AMENDMENT

The St. Charles Zoning Ordinance requires the Plan Commission to consider factors listed below in making a recommendation to the City Council.

As an applicant, the “burden of proof” is on you to show why the proposed zoning is more appropriate than the existing zoning. Therefore, you need to “make your case” by explaining how the following factors support your proposal. If a factor does not apply to the property in question, indicate “not applicable” and explain why it does not apply.

1001 N 5th Ave. and adjacent parcel to West  
Project Name or Address

5/6/2020  
Date

## From the Charles Zoning Ordinance, Section 17.04.320.D:

In making its recommendation to grant or deny an application for a Zoning Map Amendment, including changes to Zoning District and Overlay boundaries, the Plan Commission shall consider:

1. The existing uses and zoning of nearby property. *(Relate the proposed land use and zoning to the land use and zoning of other properties in the area)*

The properties surrounding the subject property are zoned RS-1 on the North, East, and West sides, and all appear to be single family uses. The property to the Southeast is zoned OR and is occupied by the St. Charles Episcopal Church. The property to the South is zoned RM-2, is listed as a planned unit development, and is occupied by Delnor Assisted Living.

2. The extent to which property values are diminished by the existing zoning restrictions. *(Compare the value of the subject property and nearby properties under the current zoning to their potential value under the proposed zoning.)*

The property values of the subject properties are greatly reduced by the current zoning, because even though there are two tax parcels, both individual tax parcels are below the 18,000 square foot minimum lot size, creating a non-conforming use on the existing house parcel, and an unbuildable lot on the vacant parcel next door. If the two parcels are both rezoned to RS-2, our research leads us to believe that the market value of the bare land alone on each individual parcel would be \$120,000, or \$240,000 for both. The current listed asking price for both parcels is \$185,000, including the improvements on one parcel.

3. The extent to which the reduction of the property’s value under the existing zoning restrictions promotes the health, safety, morals or general welfare of the public. *(If the existing zoning decreases the value of the subject realty, does it also produce any perceptible public benefits?)*

Because the current zoning of the subject properties does not allow the more western parcel to be built on, it may facilitate a picture of large and open lots in the neighborhood, though in their current overgrown and dilapidated state, we believe this effect is minimal. In their current state, we do not believe that the subject properties create any real value to the public.

4. The suitability of the property for the purposes for which it is presently zoned, i.e. the feasibility of developing the property for one or more of the uses permitted under the existing zoning classification. *(Can the subject property reasonably be used for any of the uses currently permitted? Physical and market conditions may be considered.)*

The properties are currently not suitable for the purposes for which they are zoned. A single family residential use is appropriate, however the existing RS-1 zoning does not make development feasible, and creates a non-conforming use of the existing house. The subject properties can not be used for any of the uses currently permitted, because of the current zoning.

---

---

---

5. The length of time that the property has been vacant, as presently zoned, considered in the context of the land development in the area where the property is located. *(If a property has been vacant longer than other similar properties in the area, it may be an indicator that the existing zoning is inappropriate.)*

As far as we are able to discern, the more Western parcel has always been vacant. It is one of very few remaining vacant parcels in this highly desirable area of St. Charles.

---

---

---

6. The evidence, or lack of evidence, of the community's need for the uses permitted under the proposed district. *(Development trends, market forces, and the Comprehensive Plan may be considered.)*

With the proposed RS-2 zoning, the use of the parcels will remain single family residential. The neighborhood in which the properties are located is highly desirable, and home prices have steadily risen, proving a demand for more quality housing stock. Additionally, the change in zoning is the only thing that would make it make sense financially to restore the existing 1925 house to its former glory, creating an attractive entrance into downtown St. Charles along RT. 25.

---

---

7. The consistency of the proposed amendment with the City's Comprehensive Plan.

The comprehensive plan dated 2013 recommends the following for detached single family residential neighborhoods: "The City should investigate new methods to improve the conditions of all residential neighborhoods, including maintenance programs and incentives for developing vacant properties, while continuing to enforce building and design codes, regulations, and standards." The proposed RS-2 zoning will make it financially feasible for us to restore the 1925 house, therefore improving the condition of the neighborhood and bringing another house up to code. It will also allow for the future development of a single family home on the vacant property.

8. Whether the proposed amendment corrects an error or omission in the Zoning Map.

To our knowledge, the current RS-1 zoning of the subject properties is not the result of an error or omission.

---

---

---

---

9. The extent to which the proposed amendment creates nonconformities. *(Generally it is not appropriate to rezone a property unless it can comply with the requirements of the new zoning.)*

The proposed amendment to the zoning map does not create any nonconformities, in fact, it corrects one, as the existing house is nonconforming under the current zoning.

---

---

---

---

10. The trend of development, if any, in the general area of the property in question. *(New development, redevelopment, changes in use, or other changes in the area may help to justify a change in zoning.)*

There is a trend of development and improvement in the area. On the Northern end of the same block as the subject properties, there are two homes that have recently been extensively rehabbed, and it appears that there is at least one custom home lot available from a local homebuilder.

---

---

---

---

Plan Commission recommendation shall be based upon the preponderance of the evidence presented and the Commission shall not be required to find each Finding of Fact in the affirmative to recommend approval of an application for Map Amendment.

# Authorization to Pursue Zoning Amendment

The purpose of this document is for the current owner/s of the tax parcels numbered 09-27-203-007 and 09-27-203-006 in the city of St. Charles, to convey their permission to Jeffrey R Johnson, of 1031 S 2<sup>nd</sup> St., St. Charles, IL to pursue a zoning amendment to the aforementioned tax parcels on their behalf. The amendment will be to change the zoning from the current RS-1, to an RS-2. The current owner/s also agree to allow access to the exterior of the property as needed for a survey. Additionally, the owner/s grant their permission to file on their behalf a "Soil and Water Conservation District Land Use Opinion Application" and an "Endangered Species Consultation Agency Action Application", as required by the city of St. Charles with a zoning amendment application.
