

AGENDA ITEM EXECUTIVE SUMMARY

Agenda Item number: 4b

Title:

Recommendation to approve a Plat of Easement for Hillcroft, 1147 Geneva Rd.

Presenter:

Ellen Johnson

Meeting: Planning & Development Committee

Date: October 8, 2018

Proposed Cost: N/A

Budgeted Amount: N/A

Not Budgeted:

Executive Summary *(if not budgeted please explain):*

The Hillcroft PUD consists of two single-family parcels on the west side of Geneva Rd. between Roosevelt and Horne streets. The PUD was approved under Ordinance 2017-Z-15 and modified to add a second buildable lot earlier this year under Ordinance 2018-Z-12.

A 20 ft. wide Public Utility Easement along the Geneva Rd. frontage was identified on the approved site plan as requested by the City. The PUD Ordinance requires submittal of a Plat of Easement prior to issuance of building permit.

A Plat of Easement has been submitted. Staff has no outstanding comments and recommends approval.

Attachments *(please list):*

City of St. Charles, Illinois

Ordinance No. 2018-Z-12

**An Ordinance Amending Ordinance No. 2017-Z-15
(Hillcroft Estates PUD) and Granting Approval of a
PUD Preliminary Plan for Hillcroft Estates, 1147
Geneva Road**

**Adopted by the
City Council
of the
City of St. Charles
July 16, 2018**

**Published in pamphlet form by
authority of the City Council
of the City of St. Charles,
Kane and Du Page Counties,
Illinois, July 23, 2018**

City Clerk

(SEAL)

City of St. Charles, Illinois
Ordinance No. 2018-Z- 12

**An Ordinance Amending Ordinance No. 2017-Z-15 (Hillcroft Estates PUD)
and Granting Approval of a PUD Preliminary Plan for Hillcroft Estates, 1147
Geneva Road**

WHEREAS, on or about April 27, 2018, Hillcroft Estates LLC (the “Applicant”) filed petitions for Amendment to Special Use for Planned Unit Development Ordinance No. 2017-Z-15, “An Ordinance Amending Ordinance No. 2016-Z-6 (Hillcroft Estates PUD) and Granting Approval of a PUD Preliminary Plan for Hillcroft estates, 1147 Geneva Road”, and PUD Preliminary Plan, both for the real estate commonly known as 1147 Geneva Road and legally described in Exhibit “A”; said Exhibit being attached hereto and incorporated herein (the “Subject Property”), for the purpose of adding a second single-family home on the property and requesting that a Plat of Subdivision not be required to divide the property into two buildable parcels; and,

WHEREAS, Notice of Public Hearing on said petition for Amendment to Special Use for Planned Unit Development was published on or about May 21, 2018 in a newspaper having general circulation within the City, to-wit, the Daily Herald newspaper, as required by the statutes of the State of Illinois and the ordinances of the City; and,

WHEREAS, pursuant to said Notice, the Plan Commission conducted a public hearing on or about June 5, 2018 on said petition in accordance with the statutes of the State of Illinois and the ordinances of the City; and,

WHEREAS, at said Public Hearing, the Applicant presented testimony in support of said petition and all interested parties had an opportunity to be heard; and,

WHEREAS, the Plan Commission recommended approval of said Amendment to Special Use for Planned Unit Development and PUD Preliminary Plan petitions on or about June 5, 2018; and,

WHEREAS, the Planning & Development Committee of the City Council recommended approval of said petitions on or about July 9, 2018; and,

WHEREAS, the City Council of the City of St. Charles has received the recommendations of the Plan Commission and Planning & Development Committee and has considered the same.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ST. CHARLES, KANE AND DUPAGE COUNTIES, ILLINOIS, as follows:

1. The preambles set forth hereinabove are incorporated herein as substantive provisions of this Ordinance as though fully set out in this Section 1.

2. That passage of this Ordinance shall constitute approval of an Amendment to Special Use for Planned Unit Development pursuant to the provisions of Title 17 of the St. Charles Municipal Code, as amended, and based upon the Applicant's petitions and the evidence presented at the Public Hearing, the City Council hereby finds that the Amendment to Special Use for Planned Unit Development is in the public interest and adopts the Criteria for Planned Unit Developments, set forth on Exhibit "B", which is attached hereto and incorporated herein.

3. A PUD deviation is hereby granted to waive the requirement of Title 16 of the St. Charles Municipal Code, "Subdivisions and Land Improvement", to provide a Plat of Subdivision for the purpose of dividing the Subject Property into two buildable parcels as depicted on the PUD Preliminary Plan. Prior to issuance of a building permit for a second single family home on the property, the applicant shall provide documentation demonstrating that Subject Property has been legally divided under the Illinois Plat Act into parcels conforming to the PUD Preliminary Plan.

4. That passage of this Ordinance shall constitute approval of the PUD Preliminary Plan, incorporated herein as Exhibit "C", such that the following documents and illustrations are hereby approved, reduced copies of which are attached hereto, subject to satisfactory resolution of all outstanding staff review comments and compliance with such conditions, corrections, and modifications as may be required by the Director of Community & Economic Development and the Director of Public Works to comply with the requirements of the St. Charles Municipal Code, and subject to submittal of a Plat of Easement at the time of building permit for the 20 ft. Public Utility Easement shown on the PUD Preliminary Plan:

- Topographical Site Development & Tree Preservation Plan; Engineering Resource Associates; revisions dated 6/1/2018
- Architectural Elevations (Parcel 2); Marshall Architects, Inc.; not dated
- Tree Inventory and Preservation Plan; SaveATree; not dated

5. That after the adoption and approval hereof, the Ordinance shall (i) be printed or published in book or pamphlet form, published by the authority of the Council, or (ii) within thirty (30) days after the adoption and approval hereof, be published in a newspaper published in and with a general circulation within the City of St. Charles.

PRESENTED to the City Council of the City of St. Charles, Kane and DuPage Counties, Illinois this 16th day of July 2018.

PASSED by the City Council of the City of St. Charles, Kane and DuPage Counties, Illinois this 16th day of July 2018.

APPROVED by the Mayor of the City of St. Charles, Kane and DuPage Counties, Illinois this 16th day of July 2018.

CHARLES, KANE COUNTY, ILLINOIS.

EXHIBIT "B"

CRITERIA FOR PLANNED UNIT DEVELOPMENTS

- i. The proposed PUD advances one or more of the purposes of the Planned Unit Development procedure stated in Section 17.04.400.A:**
 - 1. To promote a creative approach to site improvements and building design that results in a distinctive, attractive development that has a strong sense of place, yet becomes an integral part of the community.**
 - 2. To create places oriented to the pedestrian that promote physical activity and social interaction, including but not limited to walkable neighborhoods, usable open space and recreational facilities for the enjoyment of all.**
 - 3. To encourage a harmonious mix of land uses and a variety of housing types and prices.**
 - 4. To preserve native vegetation, topographic and geological features, and environmentally sensitive areas.**
 - 5. To promote the economical development and efficient use of land, utilities, street improvements, drainage facilities, structures and other facilities.**
 - 6. To encourage redevelopment of sites containing obsolete or inappropriate buildings or uses.**
 - 7. To encourage a collaborative process among developers, neighboring property owners and residents, governmental bodies and the community.**

The proposed development will include redevelopment of the existing property in a way that preserves the unique topography of the site while creatively addressing the challenges it provides. Two residence onsite achieves more efficient land use without additional public infrastructure. The large open spaces below and in front of each residence enhance the grandeur of each.

- ii. The proposed PUD and PUD Preliminary Plans conform to the requirements of the underlying zoning district or districts in which the PUD is located and to the applicable Design Review Standards contained in Chapter 17.06, except where:**
 - A. Conforming to the requirements would inhibit creative design that serves community goals, or**
 - B. Conforming to the requirements would be impractical and the proposed PUD will provide benefits that outweigh those that would have been realized by conforming to the applicable requirements.**

Factors listed in Section 17.04.400.B shall be used to justify the relief from requirements:

- 1. The PUD will provide community amenities beyond those required by ordinance, such as recreational facilities, public plazas, gardens, public art, pedestrian and transit facilities.**

2. **The PUD will preserve open space, natural beauty and critical environmental areas in excess of what is required by ordinance or other regulation.**
3. **The PUD will provide superior landscaping, buffering or screening.**
4. **The buildings within the PUD offer high quality architectural design.**
5. **The PUD provides for energy efficient building and site design.**
6. **The PUD provides for the use of innovative stormwater management techniques.**
7. **The PUD provides accessible dwelling units in numbers or with features beyond what is required by the Americans with Disabilities Act (ADA) or other applicable codes.**
8. **The PUD provides affordable dwelling units in conformance with, or in excess of, City policies and ordinances.**
9. **The PUD preserves historic buildings, sites or neighborhoods.**

The unique character of the site topography prevents structures on-site from meeting the height requirements of the zoning code. Relief from these requirements will allow the developer to construct dwellings in keeping with the spirit of upscale development in the neighborhood. The proposed development will also intensify carefully designed buffering and screening not present on the existing property. The property may be lawfully divided without submitting a plat of subdivision by using a Plat Act exception, while still promoting all of the same goals advocated by city codes.

iii. The proposed PUD conforms with the standards applicable to Special uses (section 17.04.330.C.0):

A. Public Convenience: The Special Use will serve the public convenience at the proposed location.

The existing dwelling has fallen into disrepair and needs to be demolished. The special use will allow for the style and design of the proposed home to be constructed appropriate for the subject premises.

B. Sufficient Infrastructure: That adequate utilities, access roads, drainage and/or necessary facilities have been, or are being, provided.

Since the redevelopment of the subject premises is considered "infill," all offsite utilities and access to the subject premises already existing; required onsite infrastructure will be provided as depicted on the final engineering plans.

C. Effect on Nearby Property: That the Special Use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish or impair property values within the neighborhood.

The upscale nature of the residence proposed for the subject premises will raise

property values in the immediate area. With infill, the only impact on adjacent properties will be the connection to existing facilities across public rights of way. Use of adjacent properties will not be diminished nor impaired because of the proposed development.

D. Effect on Development of Surrounding Property: That the establishment of the Special Use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.

Because adjacent properties have already been developed for their intended use and are occupied, additional development is unlikely, but would not be impeded.

E. Effect on General Welfare: That the establishment, maintenance or operation of the Special Use will not be detrimental to or endanger the public health, safety, comfort or general welfare.

As infill, the Special Use to allow redevelopment of the subject premises with the existing zoning classification will not be detrimental to or endanger the public health, safety, comfort, or general welfare.

F. Conformance with Codes: That the proposed Special Use conforms to all existing Federal, State and local legislation and regulation and meets or exceeds all applicable provisions of this Title, except as may be varied pursuant to a Special Use for Planned Unit Development.

The redevelopment will conform to all regulations except those pertaining to building height restriction and that no plat of subdivision is required to be submitted for the divisions of the property.

iv. The proposed PUD will be beneficial to the physical development, diversity, tax base and economic well-being of the City.

The PUD will enable improvement of infill property near the entrance to the city that needs redevelopment; it will be compatible with adjacent land uses, and will raise the tax base with little additional burden to city infrastructure.

v. The proposed PUD conforms to the purposes and intent of the Comprehensive Plan.

As infill, the PUD is consistent with the Comprehensive Plan.

ID	DBH	Other Stems	Common	Scientific	Cond.	R	RP	CP	PF	M	I	Notes
67	11		Hemlock	<i>Tsuga canadensis</i>	Fair	x						

Poor - The tree appears unhealthy and may have significant structural defects.

Fair - The tree has structural or health issues that could decrease likelihood of survival during construction

Good - Overall, the tree is healthy and satisfactory in condition and form. The tree has no major structural problems.

Actions:

R - Remove

M - Mulch

RP - Root Prune

I - Irrigate

P - Crown Prune

PF - Protection Fence

Recommendations

Tree protection zone - Defined for all trees within and adjacent to the construction zone as a radial distance of 1 foot per inch in tree diameter. **Temporary fencing** (4 feet high) shall be installed at the edge of all tree protection zones. Fence shall completely encircle the tree.

Activities prohibited within the Tree Protection Zone include:

- Parking vehicles or equipment, storage of building materials, refuse, or excavated soils, or dumping poisonous material on or around trees and roots. Poisonous materials include, but are not limited to paint, petroleum products, concrete, stucco mix, dirty water or any material that may be harmful to tree health.
- The use of tree trunks as a backstop, winch support, anchorage, as a temporary power pole, signpost or other similar function.
- Cutting of tree roots by utility trenching, foundation digging, placement of curbs and trenches, or other miscellaneous excavations without prior approval of the project arborist
- Soil disturbance, drainage or grade change.
- No machinery or equipment shall be used within the protection fence. Work within the protection zone shall be done manually.
- Removal of asphalt by any means other than by hand or with lightweight equipment that will not compact the soil or sever tree roots.

The following actions will be performed on an as-needed basis to help ensure tree health. All work should be done in accordance with applicable ANSI A300 Standards.

Removal: Trees will be removed if they cannot reasonably be expected to survive construction due to either poor health or proximity to construction activities.

Crown pruning - Trees will be pruned to promote health and proper structure and to provide clearance for construction activities. Tree crowns should be raised to allow clearance for construction activities. Dead limbs larger than 1 inch should be removed. Oak trees should be pruned from the months of October - March only to reduce risk of oak wilt transmission.

Root Pruning - Trees whose roots extend into the construction zone will have their roots pruned at the edge of the zone to prevent damage during construction. Root should be pruned to 18-24 inches below grade.

Irrigation - Trees will be irrigated before and during construction.

Mulch - Shredded hardwood, free of deleterious materials. Mulch should be spread within the TPZ prior to construction to a four to six inch depth, leaving the trunk clear of mulch. This will aid in inadvertent soil compaction and moisture loss.

Fertilization - Fertilization and other soil needs should be determined at a later date based on soil sampling and actual construction impacts.

Signage - Signs stating "No Entry, Tree Preservation Area" shall be placed along temporary fencing.

Sample specification for tree protection fencing.

Sample of tree preservation signage
