Executive Summary (*if not budgeted please explain*):

On March 4,2021, the City opened bids for the contract to provide asphalt material for roadway and parking lot patching and repair programs. The City received two responses to this bid solicitation.

The Public Works Department utilizes asphalt materials for in-house maintenance to patch roadways throughout the year, and to restore roadways after underground infrastructure repairs.

Plote Construction submitted the lowest responsive bid for the provisions of these materials. The City has utilized material from Plote in the past, most recently in 2020, and found the material to meet the City's standards.
