Executive Summary (*if not budgeted please explain*):

On March 4, 2021 the City opened bids for the annual concrete materials contract from the City’s public works operations. The City received one response to this bid solicitation. Prairie Material of Batavia, IL submitted the lowest qualified bid for this work. The City has utilized concrete material from Prairie in the past and found the material to meet the City’s standards.

While the Public Services Division is the primary user of this contract for making repairs to sidewalks, curbs and roadways throughout the community, all Public Works divisions utilize concrete materials for general construction and restoration following underground excavations.
