| <b>Executive Summary</b> (if not budgeted, please explain):<br><br>Smithfield Foods is a manufacturer of packaged meats with facilities located at 410 S Kirk Rd. It has several locations in the United States and internationally. Smithfield is one of St. Charles's largest employers. Over the past few years, the facility has been the subject of odor-related complaints from residents on the east side. The company has implemented measures to mitigate the smell following discussions between city staff and Smithfield leadership. Smithfield leadership has agreed to present and discuss at the Government Operations meeting to provide insights into their organization and elaborate on the steps taken to alleviate the odor issue. |                                      |   |   |
