<b>EXECUTIVE SUMMARY:</b>				
<p>Proposed is a cedar, “French Gothic” style board-on-board fence to replace the existing fence around the back yard of the house.</p> <p>The fence will be 4 ft. in height, except along a portion of the east property line where it will be 6 ft.</p>				
<b>RECOMMENDATION / SUGGESTED ACTION:</b>				
Provide feedback and recommendations on approval of the COA.				

# Front

Front of house: We will replace these privacy fence panels that run between our house and our neighbor's house. We plan on keeping the same footprint, with the height tapering down. Below is the privacy fence panel we plan to use. It has a French gothic style top to match the picket fence in the rest of the yard.

## West side

There was a gate here from previous owners, but it broke and was laying in the yard. We disposed of it. We plan to put in gothic french picket fence as shown below from Menards. There will be a gate here that swings into the yard due to the house being on a hill. We will make our own picket gate out of one of these panels. This is on the West side of the house. The picket fence will continue all down the side and back of the yard. Once the fence is complete we will be able to level and reseed the yard, enhancing appearance of whole house.

### 4' x 8' French Gothic Cedar Spaced Picket Fence Panel

Model Number: 1731491 | Menards® SKU: 1731491  
Variation: Natural Cedar Wood

\$29.97

# Rear

Continue with picket fence along back yard line. There was a tree growing through current fence - the trunk/stump is still there. We will move the fence line in just a bit (6" - 12") so as to not build through the tree when we replace it. We also plan to straighten out the fence line as it currently is crooked.
