Executive Summary (if not budgeted, please explain):			
<p>As presented at the January 22, 2024 City Council Winter Workshop, a task force was proposed for the Fox River St. Charles Dam. The United States Army Corp of Engineers released a draft study regarding removal of nine dams along the Fox River, including the St. Charles Dam. Before the City makes a determination regarding either support or opposition to removal of the Dam, the City must assess multiple factors, including gathering public input. The City believes the creation of a task force to solicit public input and analyze all the relevant information is the most prudent approach with the task force making final comments to the City in one year.</p>
