ARCHITECTURAL DESCRIPTION: ROOF

ROOF TYPE

Cascading Hip, Gable-on-Hip

ROOF MATERIAL

Asphalt Shingles

ROOF FEATURES

The residence features a complex roof form with a main hipped roof that continues into a cascading hip to the north and cross gables to the west; The face of the gable roofs are ornamented with decorative brackets and a raking cornice.

ARCHITECTURAL DESCRIPTION: WINDOWS

TYPE

Nine-light vinyl casement windows (non-historic); Six-light vinyl awning windows (non-historic).

MATERIALS

Vinyl

WINDOW FEATURES

Wide, rectilinear wood trim surrounds most window openings.

ARCHITECTURAL DESCRIPTION: DOORS

TYPE

The main (west) door is a wood stile and rail door with two vertical decorative panels and an upper light, the rail between the lower panels and upper light is dentillated; The side (north) door is not clearly visible from the public right-of-way.

MATERIALS

Wood

DOOR FEATURES

The main entrance door is flanked by full-light sidelights.

ARCHITECTURAL DESCRIPTION: PORCHES

TYPE

Covered, open-air entrance porches at the front (west) and side (north) entrances.

MATERIALS

Limestone, Wood, Concrete

PORCH FEATURES

The front entrance porch is covered by a front-facing gable roof which projects from the main plane of the front (west) facade, the face of the gable is ornamented with a carved bracket below the peak, a raking cornice, and vertical battens. The roof is partially supported by a pair of three square columns which flank the opening to the porch and rest on battered stone piers. The spandrel between the columns is arched.; The side (north) entrance porch features an identical roof design and detailing, though the roof is only supported by two single square columns at the exterior corners of the porch.

ARCHITECTURAL DESCRIPTION: ROOF

ROOF TYPE

Gabled

ROOF MATERIAL

Asphalt Shingles

ROOF FEATURES

Shed roof dormers at side (north and south) facades; Gabled end of the main roof features a simple raking cornice and is clad in vertical wood siding.

ARCHITECTURAL DESCRIPTION: WINDOWS

TYPE

Eight-over-one double-hung (historic, wood); Full-light casement; Eight-light casements (historic, wood); Nine-light windows possibly casements, but the operation is difficult to see due to landscaping (historic, wood); Windows at the south facade were not clearly visible from the public right-of-way due to landscaping.

MATERIALS

Vinyl, Wood

WINDOW FEATURES

The residence retains several historic wood windows; Projecting square bay windows at the side (north) facade.

ARCHITECTURAL DESCRIPTION: DOORS

TYPE

Not clearly visible due to storm door.

MATERIALS

Unknown

DOOR FEATURES

The entrance is recessed from the main plane of the front (east) facade to create a protected entrance area.

SIGNIFICANT/CHARACTER-DEFINING FEATURES

See previous features described in Roofs, Windows, and Doors.

ALTERATIONS AND/OR ADDITIONS

Some windows have been replaced.

OUTBUILDINGS/SECONDARY BUILDINGS

One-story garage with a side-gabled roof and clad in siding is attached to the residence via a one-story hyphen. One-story cottage located immediately south of the main residence. The cottage had a front-facing gable roof and is clad in brick and siding. A shed roof extends south from the main gable roof to cover what appears to have been a porch that is now enclosed. Windows are one-over-one double-hung vinyl windows, except for the historic wood-paneled four-light sidelights that flank the entrance door (non-historic paneled aluminum door).

NOTES

The architectural style is noted as "No Style" as original style is indiscernible following a mid-twentieth century remodeling and addition.
