

FEDERAL EMERGENCY MANAGEMENT AGENCY
APPLICATION FORM FOR SINGLE RESIDENTIAL LOT OR STRUCTURE AMENDMENTS TO
NATIONAL FLOOD INSURANCE PROGRAM MAPS

O.M.B. NO. 3067-0257
 Expires May 31, 2005

PAPERWORK REDUCTION ACT

Public reporting burden for this form is estimated to average 2.4 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing, reviewing, and submitting the form. You are not required to respond to this collection of information unless a valid OMB control number is displayed in the upper right corner of this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Federal Emergency Management Agency, 500 C Street, S.W., Washington DC 20472, Paperwork Reduction Project (3067-0257). Submission of this form is required to obtain or retain benefits under the National Flood Insurance Program.

This form should be used to request that the Federal Emergency Management Agency (FEMA) remove a single structure or legally recorded parcel of land or portions thereof, described by metes and bounds, certified by a registered professional engineer or licensed land surveyor, from a designated Special Flood Hazard Area (SFHA), an area that would be inundated by the flood having a 1%-chance of being equaled or exceeded in any given year (base flood), via Letter of Map Amendment (LOMA). It shall not be used for requests submitted by developers, for requests involving multiple structures or lots, for property in alluvial fan areas or coastal high hazard areas (V zones), or requests involving the placement of fill. (NOTE: Use MT-1 forms for such requests). Fill is defined as material placed to raise the grade to or above the Base Flood Elevation (BFE). The common construction practice of removing unsuitable existing material (topsoil) and backfilling with select structural material is not considered the placement of fill if the practice does not alter the existing (natural grade) elevation, which is at or above the BFE. Also, fill that is placed before the date of the first National Flood Insurance Program (NFIP) map showing the area in an SFHA is considered natural grade.

LOMA:	A letter from FEMA stating that an existing structure or parcel of land that has not been elevated by fill would not be inundated by the base flood.
--------------	--

A - This section may be completed by the property owner or by the property owner's agent.

1. Has fill been placed on your property?

No Yes - If Yes, STOP!! - You must complete the MT-1 application forms; visit <http://www.fema.gov/niflood/mt-1.htm> or call the FEMA Map Assistance Center toll free: (877-FEMA MAP) (877-338-2627)

2. Legal description of Property (Lot, Block, Subdivision) and street address of the Property (if different from mailing address):

3. Are you requesting that the flood zone designation be removed from (check one):

- Your entire legally recorded property?
- A portion of your legally recorded property? (a metes and bounds description and map of the area to be removed, certified by a registered professional engineer or licensed land surveyor are required)
- A structure on your property? What is the date of construction?

B - This section must be completed by a registered professional engineer or licensed land surveyor.

NOTE: If an NFIP Elevation Certificate has already been completed for this property, it may be submitted in addition to this form.

Applicable Regulations

The regulations pertaining to LOMAs are presented in the National Flood Insurance Program (NFIP) regulations under Title 44, Chapter I, Parts 70 and 72, Code of Federal Regulations. The purpose of Part 70 is to provide an administrative procedure whereby FEMA will review information submitted by an owner or lessee of property who believes that his or her property has been inadvertently included in a designated SFHA. The necessity of Part 70 is due in part to the technical difficulty of accurately delineating the SFHA boundary on an NFIP map. Part 70 procedures shall not apply if the topography showing the property to be within the SFHA.

Basis of Determination

FEMA's determination as to whether a structure or legally recorded parcel of land, or portions thereof, described by metes and bounds, may be removed from the SFHA will be based upon a comparison of the Base (1%-annual-chance) Flood Elevation (BFE) with certain elevation information. For Zone A, with no BFE determined, refer to Managing Floodplain Development in Approximate Zone A Areas, A Guide for Obtaining and Developing Base (100-Year) Flood Elevations. The elevation information required is dependent on whether a structure, or a legally recorded parcel of land, is to be removed from the SFHA.

Item to be Removed from the SFHA: (check one)

Elevation Information Required: (complete item 4)

Structure located on natural grade (LOMA)

Lowest Adjacent Grade to the structure (the elevation of the lowest ground touching the structure including attached decks or garage)

Undeveloped legally recorded parcel of land (LOMA)

Elevation of the lowest ground on the parcel or within the portion of land to be removed from the SFHA (skip to item 2)

1. What is the type of construction? (check one) crawl space slab on grade basement/enclosure other (explain)

2. BUILDING INFORMATION

Building Street Address (including Apt. Unit, Suite, and/or Bldg. No.):

222 N. 5th Street St. Charles IL 60174

Property Description (Lot and Block Number, Tax Parcel Number, Legal Description, etc.):

09-27-352-006 Pt of SW 1/4 of Sec 27-40-8

3. FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

NFIP Community Number: 170330

Map & Panel Number: 0004C

Base Flood Elevation: 696.50

4. ELEVATION INFORMATION (SURVEY REQUIRED)

- Lowest Adjacent Grade (LAG) to the structure: 697.23 ft. (m)
- Elevation of the lowest grade on the property, or, metes and bounds area ft. (m)
- Indicate the datum (and datum conversion if different from NGVD 29 or NAVD 88)
- Has FEMA identified this area as subject to land subsidence or uplift? Yes No
- If Yes, what is the date of the current releveling?

This certification is to be signed and sealed by a licensed land surveyor, registered professional engineer, or architect authorized by law to certify elevation information. All documents submitted in support of this request are correct to the best of my knowledge. I understand that any false statement may be punishable by fine or imprisonment under Title 18 of the United States Code, Section 1001.
