

# Catalog Homes St. Charles, IL

Beginning in the early 1900s and through the 1940s, many homes were ordered from catalogs or based on catalog models marketed by companies like Sears, Aladdin, and Montgomery Ward. In 2013, architectural historian Rebecca Hunter conducted a street-by-street survey of St. Charles to identify possible catalog homes. A total of 68 homes were identified as possible catalog homes.

The 20 homes shown on this map have been verified as catalog homes based on evidence such as Kane County mortgage records indicating financing by mail order home companies and information gathered by current homeowners.

Map #	Address	Company & Model	Year Built	Evidence
