

Possible Catalog Homes St. Charles, IL

Beginning in the early 1900s and through the 1940s, many homes were ordered from catalogs or based on catalog models marketed by companies like Sears, Aladdin, and Montgomery Ward. In 2013, architectural historian Rebecca Hunter conducted a street-by-street survey of St. Charles to identify possible catalog homes. A total of 68 homes were identified as possible catalog homes.

The 47 homes listed below were identified as possible catalog homes, but no evidence has been collected confirming that these homes are indeed catalog homes.
