Executive Summary:

Background History:

At the February meeting the committee directed staff to work with District 303 staff to address a means to mitigate peak hour traffic congestion present at the intersection of Red Gate Road and SCN HS. The second task was to further discuss the means to fund these improvements.

Implementation Strategy to Mitigate Peak Hour Traffic at Red Gate Road and SCN HS:

- a- District 303 will install the parking lot changes to channelize the flow of motorists. This was option 6 as presented at the February GSC meeting. See the attachment for details.
- b- The City will mark the pavement along Red Gate Road providing for defined left turning lanes serving west bound motorist entering SCN HS and east bound motorists entering River Ridge Dr. This was options 2 and 4 as presented at the February GSC meeting. This task will be completed before the beginning of the school year, autumn 2012.

Funding Means:

The cost to implement the Red Gate Road pavement marking task is minimal. This cost will come from the Red Gate Bridge account.

The strategy outlined above would be evaluated following its implementation. Based on the results of this effort, the next step would be determined.

Attachments: *(please list)*

Option 6- SCN HS parking lot traffic plan.

Recommendation / Suggested Action *(briefly explain):*

Direct staff to implement the plan as outlined, evaluate the effectiveness of the strategy and report back to the committee at a later date.
