If NO, please explain how item will be funded:

Executive Summary:

The Public Services Division is recommending asphalt repairs and reconstruction to Parking Lot K which is the City Parking Lot (leased from the Baker Methodist Church) located on the corner of Main St. and North 3rd Ave. As a result of a communication breakdown within the department the subject repairs have been completed. This work was completed without Council authorization and we are asking for your approval after the fact. The department apologizes for the error and we are re-engineering our process so this does not happen in the future. For your information, the project consisted of grinding the existing asphalt, resurfacing and restriping. Plote Construction, Inc., who was awarded the 2013 Street Rehabilitation Contract, honored their competitive pricing for this project. Considering their low bid and mobilization within the City, staff recommends Plote for the project at a cost of \$35,690.
