## EXHIBIT "B"

### FINDINGS OF FACT REGARDING THE PUD

**A. The proposed PUD advances the purposes of the Planned Unit Development procedure.**

The proposed PUD will provide benefits that outweigh those that would have been realized by conforming to the applicable requirements. These benefits include:

1. A coordinated, comprehensive design for redevelopment of the area rather than a piecemeal approach
2. Two parking decks providing additional public parking for existing and new businesses
3. Reconstructed public utilities and elimination of overhead electric lines
4. A well designed bi-level river walk
5. Opportunity for outdoor dining for enjoyment of the riverfront
6. Streetscape improvements to create a pedestrian friendly environment
7. Public Plazas provide a gathering place that promotes social interaction
8. Opportunities for placement of public art
9. 16 units of affordable rental housing
10. A variety of high quality retail space to expand the available tenant mix
11. High quality office space to facilitate employment opportunities
12. Unique housing that helps to foster a 24 hour downtown

**B. The proposed PUD Preliminary Plans conform to the applicable Design Review Standards (Chapter 17.06).**

The proposed special use meets the applicable design review standards, except for the deviations being requested. Avoiding these deviations, including maximum building height and maximum floor area per building, would be impractical because it would impact the economic viability of the project. The standard ordinance requirements are intended to regulate developments that are not subject to the PUD review process. In this instance, building architecture and other positive design elements/public benefits of the plan can be used to justify the need for the planned unit development and the proposed deviations.

**C. The proposed PUD conforms with the standards applicable to Special Uses (Section 17.04.330).**

**Public Convenience: The Special Use will serve the public convenience at the proposed location;**

Over the past 15 years, the City and the community have engaged in a series of studies, plans, improvement projects, organizational efforts, and programs to revitalize downtown St. Charles. The project area is mostly vacant, is in need of redevelopment, and in its present condition does not meet the goals of the Comprehensive Plan or the various

revitalization efforts. Granting the special use for the PUD will enable the property to be redeveloped, which in turn will help realize the goal of revitalizing downtown St. Charles.

The proposed pedestrian oriented, mixed use development will host a variety of uses that will complement the downtown area and provide new shopping, dining, working, and living opportunities. Therefore, the public convenience will be served by the proposed development.

**Sufficient Infrastructure: That adequate utilities, access roads, drainage and/or necessary facilities have been, or are being, provided;**

Infrastructure improvements planned along the First Street corridor include new water and sanitary sewer mains, new storm sewers, and new underground electric utility installations. First Street will be completely reconstructed, its right of way width will be increased from 60 to 80 feet (for the most part), and the street will include angle parking as well as public sidewalks and streetscape enhancements. Traffic improvements include reconfiguration and realignment of First Street at Main Street, and improvements to IL 31. A traffic study was conducted, and it recommends various improvements to minimize the traffic impact of the project.

Any development of this site that generates traffic will add somewhat to existing traffic congestion, but leaving the area undeveloped is not an appropriate option. Congestion may result in additional delays, but is not projected to be a safety issue.

**Effect on Nearby Property: That the Special Use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish or impair property values within the neighborhood;**

The proposed development will provide amenities, including the public plaza and parking, which will enhance the usability of existing development along Main Street, including the buildings on the south side of Main, west of First Street and the Hotel Baker. The residential and office components will bring potential customers for existing retail establishments and other uses. The project is expected to have a positive impact on the use and enjoyment of surrounding properties and is expected to enhance property values.

**Effect on Development of Surrounding Property: That the establishment of the Special Use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.**

The surrounding properties are already developed, and the proposed uses are compatible with the mix of uses in the surrounding area. The proposed redevelopment could be a catalyst in coming years for more redevelopment to occur.

**Effect on General Welfare: That the establishment, maintenance or operation of the Special Use will not be detrimental to or endanger the public health, safety, comfort or general welfare.**

The proposed redevelopment will be a very significant component of the revitalization of downtown St. Charles and therefore will benefit the entire community. It will serve as a catalyst for other redevelopment opportunities within downtown, while supporting and complementing existing businesses. The existing infrastructure is old and will be upgraded. The project will also provide new public and private options for enjoying the river and the downtown area. In other words, the project will not be detrimental to or endanger the public health, safety, comfort or general welfare, but will instead have a positive impact.

**D. The proposed PUD will be beneficial to the physical development, diversity, tax base and economic well-being of the City.**

The proposed PUD will be beneficial to the physical development, diversity, tax base, and economic well-being of the City.

The proposed redevelopment will draw more people of all ages and backgrounds to downtown in offering some unique opportunities for shopping, restaurants, working, and living, thereby expanding the City's tax base. The project will also enable the enlargement of the Blue Goose market - a key element in the downtown area and the community. As such, the proposed PUD will be beneficial to the physical development, diversity, tax base, and economic well-being of the City.

**E. The PUD conforms to the purposes and intent of the Comprehensive Plan.**

The 2000 Downtown Strategy Plan establishes goals for development within downtown. The PUD plan supports the goal of creating a streetscape focused on pedestrian activity – it advances patterns of development that support the community's vision of a mixed use walkable district. The integration of parking structures in the plan furthers the goal of creating a strong pedestrian environment.

**F. The proposed PUD conforms to all existing Federal, State and local legislation and regulation.**

The proposed PUD will conform to all Federal, State and local legislation and regulation with the exception of the deviations being requested to the St. Charles City Code and the relief requested to the Floor Protection Elevation for Bldgs 1, 2, 3 and 4 adjacent to the Fox River floodplain.

The regulation requires the floodplain protection elevation to be three feet for areas adjacent to the Fox River. The relief sought is to lower the FPE to the 500 year flood elevation. This elevation is still above the 2 foot FPE that is required on every other floodplain in the County. The variance is necessary to have the proposed buildings relate to the existing roadways and other adjacent buildings, in order to create a pedestrian oriented district.

## EXHIBIT " D "

### FINDINGS OF FACT - SPECIAL USE FOR DRIVE THRU (HARRIS BANK)

1. **Public Convenience: The Special Use will serve the public convenience at the proposed location.**

The special use for the drive thru is being requested for Harris Bank – the bank is relocating to the subject property from it's current location at 50 S. First Street as part of the First Street redevelopment project. The drive thru bank will serve the neighboring residential and business uses (both existing and proposed).

2. **Sufficient Infrastructure: That adequate utilities, access roads, drainage and/or necessary facilities have been, or are being, provided.**

Comprehensive planning of utilities, access roads, drainage and other necessary facilities is being done as part of the redevelopment of First Street. Infrastructure improvements planned along the First Street corridor include new water and sanitary sewer mains, new storm sewers, and new underground electric utility installations. First Street will be completely reconstructed, its right of way width will be increased from 60 to 80 feet (for the most part), and the street will include angle parking as well as public sidewalks and streetscape enhancements.

3. **Effect on Nearby Property: That the special use will not be injurious to the use and enjoyment of the property in the immediate vicinity for the purpose already permitted, nor substantially diminish or impair property values within the neighborhood.**

The properties in the immediate vicinity are being proposed for mixed use development and therefore the requested special use will be compatible with the surrounding uses. As such, the special use will not be injurious to the use and enjoyment of the property in the immediate vicinity for the purpose already permitted, nor substantially diminish or impair property values within the neighborhood.

4. **Effect on Development of Surrounding Property: That the establishment of the special use will not impede the normal and orderly development and improvement of the surrounding property for the uses permitted in the zoning district.**

The neighboring properties to the south and west are already developed. The property to the east is being developed as mixed use buildings- retail on first floor and residential on upper floors. The property to the north is being proposed for mixed use development as part of the First Street redevelopment project. As such, the establishment of the special use will not impede the normal and orderly development and improvement of the surrounding property for the uses permitted in the zoning district.

5. **Effect on General Welfare: That the establishment, maintenance or operation of the special use will not be detrimental to or endanger the public health, safety, comfort or general welfare.**

The drive thru banking facility will provide a service to the surrounding residential and business uses (both existing and proposed). The drive thru is designed so that it is tucked away behind the building and does not impact the aesthetic appearance of the First Street corridor. Two driveways are being proposed as means of ingress and egress to the site. The proposed drive thru facility meets the stacking requirement of 5 stacking spaces in a single line and all stacking will be contained on the site. As such, the establishment, maintenance or operation of the special use will not be detrimental to or endanger the public health, safety, comfort or general welfare.

**6. Design Review: That the proposed Special Use meets or exceeds the applicable Design review Standards of Chapter 17.06 and other applicable provisions of this Title.**

The special use for the drive thru conforms with all applicable zoning regulations and design review standards of the CBD-1 district in which it is located. The drive thru bank will occupy the unit at the southern end of Building 7A. Building 7A is proposed as a three story brick building with articulation that blends in with existing buildings in downtown St. Charles. The street level retail has been distinguished from the upper levels by means of change in materials, awnings and lintels.

**“EXHIBIT II”**

**FINDINGS OF FACT FOR AMENDMENT TO SPECIAL USE FOR A PUD**

**Section A: Findings to determine whether the proposed PUD is in the public interest:**

**1. The proposed PUD advances the purposes of the Planned Unit Development procedure (Section 17.04.400 A through G):**

*A. To promote a creative approach to site improvements and building design that results in a distinctive, attractive development that has a strong sense of place, yet becomes an integral part of the community.*

The proposed penthouses and duplex residential units will provide a unique housing opportunity.

*B. To create places oriented to the pedestrian that promote physical activity and social interaction, including but not limited to walkable neighborhoods, usable open space and recreational facilities for the enjoyment of all.*

Not applicable to the PUD amendment.

*C. To encourage a harmonious mix of land uses and a variety of housing types and prices*

Both the Riverloft and River Terrace buildings have mixed uses (office, retail and residential); the condominiums are designed to cater to individual needs and offer variety.

*D. To preserve native vegetation, topographic and geological features, and environmentally sensitive areas.*

Not applicable to the PUD amendment.

*E. To promote the economical development and efficient use of land, utilities, street improvements, drainage facilities, structures and other facilities.*

The infrastructure has been planned and is being constructed as part of the entire First Street redevelopment project.

*F. To encourage redevelopment of sites containing obsolete or inappropriate buildings or uses.*

First Street PUD is a redevelopment project of an underutilized area in downtown.

*G. To encourage a collaborative process among developers, neighboring property owners and residents, governmental bodies and the community*

The First St project is a collaborative effort between several property owners including the City. Public hearings and meetings have been held to obtain public input.

**2. The proposed PUD conforms with the standards applicable to Special Uses (Section 17.04.330):**

*A. Public Convenience: The special Use will serve the public convenience at the proposed location.*

The amendment to the PUD involves a request to allow for additional building floor area. An additional level is being proposed to the Riverloft parking deck that contributes to the increase in the allowable floor area. Additional public parking can serve the public convenience through the amendment to the PUD.

*B. Sufficient Infrastructure: That adequate utilities, access roads, drainage and/or necessary facilities have been, or are being, provided.*

The access roads, drainage and utility layouts remain unchanged from the original PUD plan. Some internal reconfiguration has occurred within the building for electric and mechanical utility spaces which has partially triggered the amendment to the PUD for an increase in the overall building floor area.

*C. Effect on Nearby Property: That the Special Use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish or impair property values within the neighborhood.*

The overall building footprint and the uses for Bldgs 1, 2 and 3 will remain unchanged from the original PUD plan. The additional building height is in locations which are setback from the outer edges of the buildings. The amendment to the PUD will therefore, not be injurious to the use and enjoyment of other properties in the immediate vicinity, nor substantially diminish property values within the neighborhood.

*D. Effect on Development of Surrounding Property: That the establishment of the Special Use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.*

The surrounding properties are part of the First Street redevelopment project. Proposed changes to Bldgs 1,2 and 3 thru the amendment to the PUD will essentially be within the same building footprint that was approved with the PUD.

*E. Effect on General Welfare: That the establishment, maintenance or operation of the Special Use will not be detrimental to or endanger the public health, safety, comfort or general welfare.*

The requested amendment to the PUD will not be detrimental to the public health, safety, comfort or general welfare. The amendment allows for a variety in the types of housing opportunities and provides additional parking for the First Street project.

*F. Design Review: That the proposed Special Use meets or exceeds the applicable Design Review Standards of Chapter 17.06 and other applicable provisions of this Title.*

The changes to Bldgs 1, 2 and 3 will conform with all applicable standards and codes other than the requested deviations to building floor area and building height.

**3. The proposed PUD will be beneficial to the physical development, diversity, tax base and economic well being of the City.**

The changes to the residential units in Bldgs 1, 2 and 3 are being proposed to make the units more marketable, which in turn will contribute to the overall success of the project.

**4. The proposed PUD conforms to the purposes and intent of the Comprehensive Plan.**

The amendment to the PUD does not change or modify the originally approved land uses for the property.

**5. The proposed PUD conforms to all existing Federal, State and local legislation and regulation.**

The proposed amendment to the PUD complies with all applicable regulations other than the deviations being requested.

**Section B: Determining whether the proposed relief from ordinance requirements is justified:**

The relief from the requirements of the underlying zoning district is justified because:

\_\_\_\_\_ Conforming to the requirements would inhibit creative design that serves community goals, or

\_\_\_\_\_ Conforming to the requirements would be impractical and the proposed PUD will provide benefits that outweigh those that would have been realized by conforming to the applicable requirements.

Factors to be considered in this determination shall include, but are not limited to the following:

- A. The PUD will provide community amenities beyond those required by ordinance, such as recreational facilities, public plazas, gardens, public art, pedestrian and transit facilities.*

The 2006 PUD and approved preliminary plan included public plazas, a riverwalk and a unique streetscape design for the public realm – amenities that would serve the needs of the community. The amendment to the PUD does not change the approved plan. Additional parking is being proposed thru the amendment to the PUD.

- B. The PUD will preserve open space, natural beauty and critical environmental areas in excess of what is required by ordinance or other regulation.*

The amendment to the PUD does not change any of the open spaces that were approved with the original PUD.

- C. The PUD will provide superior landscaping, buffering or screening.*

Not applicable to the amendment to the PUD.

- D. The buildings within the PUD offer high quality architectural design.*

The original concept for the building architecture remains the same for Bldgs 1,2 and 3. The proposed changes add more modulation and interest to the original design.

- E. The PUD provides for energy efficient building and site design.*

Not applicable to the amendment to the PUD.

- F. The PUD provides for the use of innovative stormwater management techniques.*

Not applicable to the amendment to the PUD. No changes are contemplated from the original PUD.

- G. The PUD provides accessible dwelling units in numbers or with features beyond what is required by the Americans with Disabilities Act (ADA) or other applicable codes.*

The dwelling units are all being designed to comply with all applicable codes. Plans will be reviewed in relation to issuance of building permits to confirm compliance.

- H. The PUD provides affordable dwelling units in conformance with, or in excess of, City policies and ordinances.*

Not applicable to the amendment to the PUD. 16 affordable units have already been provided in Bldg 7A as part of the First Street project.

*I. The PUD preserves historic buildings, sites or neighborhoods*

Not applicable to the amendment to the PUD.
