Executive Summary:

The Illinois Department of Transportation has begun the resurfacing of IL Route 38, from western Kane County to IL Route 31 in Geneva. The work is beginning in western Kane County and heading east to IL Route 31.

The first stage of the work will include repairing curbs and sidewalks, adjusting manhole cover frames and pavement patching. This work will take place during the daytime hours and is expected to be completed in four to six weeks.

The second stage of the work includes the paving operations. Staff from the Illinois Department of Transportation, City of St. Charles, City of Geneva, Kane County Department of Transportation and Plote Construction met to discuss the limits and timing of the paving operations. The paving operations were broken down into four segments. Two of these segments are proposed to be completed during nighttime hours to help with traffic congestion during rush hour and daytime business hours. The proposed segments and timing for each are noted below:

- **IL Route 47 to Peck Road** – Daytime Paving Work Proposed
- **Peck Road to Bricher Road/S 14th Street** – Nighttime Paving Work Proposed
- **Bricher Road/S 14th Street to Anderson Boulevard** – Daytime Paving Work Proposed
- **Anderson Boulevard to IL Route 31** – Nighttime Paving Work Proposed.

Staff feels the nighttime work as proposed in St. Charles will be a positive benefit to traffic flow and disruption to the businesses and the Kane County Court House. Hours of night work are 8pm-6am. It is anticipated that the night work will start in St. Charles around the first week of May.
