See You at the 4th of July Celebration!

Join us this 4th of July at beautiful Pottawatomie Park! The party kicks off at 6 p.m., when “Shout Out” takes the stage in the historic pavilion, playing everything from top 40 hits to those classic get-up and dance songs. After, it’s time for the amazing fireworks display, which are best viewed from the grounds at either Pottawatomie Park or Ferson Creek Park.

For a whole day filled with enjoyment, take a few swings at the Riverview Mini Golf course, or take a dip in Swanson Pool. For more information, visit the St. Charles Park District website at www.stcparks.org/july-4th-celebration

For everyone’s safety, leave fireworks to the experts. Non-professional use of fireworks is not allowed in St. Charles.

From the Mayor’s Desk

As summer moves along and vacations provide a backdrop to family activity here in St. Charles, I thought it would be a good time to simply spotlight a vital element of our city that many times we simply take for granted—our city staff.

While it is true that my colleagues on the City Council and I form the body that establishes policy and approves or amends city ordinances, the staff of our community goes about its business on a daily basis to keep the city moving like a well-oiled machine. My tenure as your mayor provides me with the body of knowledge to state that there is excellence and best practices in the day-to-day operation of our city.

Continued on next page.
From the Mayor’s Desk

Whether it is the accuracy and diligence in the maintenance, reporting and budgeting of how your tax dollar is spent from the work of our finance department, the dedication and professionalism of our first responders in police, fire and emergency management work, the comprehensive interaction of the business community with our economic and community development department, the craftsmanship of managing our infrastructure associated with public works, the intricacies and importance of a safe, efficient information systems unit that is guarded by our IT department or the hiring and guidance of quality employees associated with human resources, our staff receives a superior grade.

And . . .my desk allows me to observe professional interaction and communication with residents, the business community and guests from the reception desk right into the mayor and city administrator’s office. The mayor/city administrator partnership is crucial and I have been blessed over these past six years with an astute, goal-oriented chief administrative officer.

From time to time, there is an issue, a complaint, a critique. Rest assured, we always try our best to respond and seek solutions to problems.

I can assure you we set a very high standard. The right people are in place collectively to maintain this ideal.

As I write this, the summer solstice is upon us. Let the sunshine in and enjoy your July 4th holiday!

See you around town.
Ray Rogina, Mayor

PUBLIC SAFETY UPDATE

Officers Complete Northwestern University Police Command Program

St. Charles Police Commander Chuck Pierce and Sergeant Rich Clark recently graduated from the School of Police Staff and Command at Northwestern University’s Center for Public Safety in Evanston, Ill.

The program provides upper-level college instruction in a total of 27 core blocks. Graduates complete courses in areas such as Organizational Behavior, Strategic Planning and Management, Principles and Practices of Leadership, Human Resource Management, and Workplace Relations.

“We are very proud of Commander Pierce and Sgt. Clark for completing this rigorous program through Northwestern University,” said St. Charles Police Chief James Keegan. “We encourage opportunities for continuing education for our officers and appreciate the application of the latest training to constantly help improve our department.”

The Center for Public Safety was established at Northwestern University in 1936 with the goal of expanding university-based education and training for the Law Enforcement Community. Since 1983, the Center has graduated 14,000 students.

St. Charles Officer Involved in a High-Speed Chase—around the Track

July 20 Fundraising Event Supports Special Olympics Illinois

St. Charles Police Officer Mike Redmann has volunteered his time to race other officers from around the state in a decked-out stock car. Racing fans, come on out to the Route 66 Dirt Oval (500 Speedway Blvd, Joliet, Ill.) and be a part of the fun for a good cause. More information about the race and how to donate is on the Special Olympics Illinois website.
50/50 Parkway Tree Program
Pre-Approval Process

The City of St. Charles is again offering trees for planting in the City parkways through its “50/50 Parkway Tree Planting Program.” Please contact the Public Works office to request a review of your parkway if you are interested in qualifying for this program. All requests must have an approved parkway review before a tree order will be placed. Please do not send payment at this time. Once approved, residents will receive a confirmation letter, an order form and details on how to order a 50/50 parkway tree. The deadline to order is August 16, 2019.

For your information, the available tree species and your cost for Fall 2019 are listed below:

- Allegheny Serviceberry $150
  (Good under power lines)
- Cherry Dogwood $185
  (Good under power lines)
- Hardy Rubbertree $193
- State Street Maple $200
- London Planetree $210
- Bald Cypress $190
- Hybrid Elm $175
- Saw Tooth Oak $245 (Spring Only)
- Ginkgo $240
- Red Oak $200 (Spring Only)

You may review information regarding the specific tree at the Morton Arboretum website or the St. Charles Public Library. Larger size trees are available at an additional cost of $100 per ½ inch diameter upgrade. If you have any questions, please contact the Public Works Office at 630.377.4405 or at pw@stcharlesil.gov.

Caring for Newly Planted Trees

Did you receive a new tree in the parkway in front of your home this spring? The City works to minimize transplant shock for new trees and promote healthy plantings in several ways:

- New trees are planted with the trunk flare a few inches above grade. The trunk flare is where the trunk expands at the base of the tree. This point should be partially visible after the tree has been planted. If the tree is planted too deep, new roots will have difficulty developing because of a lack of oxygen.
- Public Services will have a dedicated team member who will be watering new trees consistently throughout the summer/fall seasons. We feel this will allow for better results regarding tree health.
- The metal basket around the tree’s root ball and twine around the tree’s trunk will be removed at planting. This will allow for better and quicker root development and health. Removing the material from around the root ball also deters girdling roots.
- Mulch and landscape seed is provided at the time the landscape is restored around the tree. This may happen several days after a tree has been planted. The City takes care to add mulch to a depth of 2-4 inches and several inches away from the trunk of the tree. Piling mulch right up against the trunk of a tree causes decay, please avoid “volcano mulching” trees.
Did You See Your Annual Water Quality Report?

The City of St. Charles is committed to providing a continuous supply of safe, reliable and economical water to its customers. Every year the City’s Water Division distributes a report that summarizes the quality of the City’s drinking water. We are pleased to report again this year that your tap water met all Environmental Protection Agency (EPA) drinking water health standards. The water is tested in accordance with strict EPA regulations, so you can be assured your drinking water is safe and meets or exceeds all water quality standards as listed in the Safe Drinking Act.

Residents can also obtain copies of the report at the Municipal building or the Public Works facility.

What is a Water Quality Report?

A water quality report, also called a Consumer Confidence Report, lets you know what contaminants, if any, are in your drinking water and how they may affect your health. It lists all the regulated constituents that were detected in the water either over the preceding calendar year (2018) or the last sampling event. The testing frequency of the constituents varies, not all are tested annually. The frequency of testing is mandated by the Illinois EPA.

For more information, contact the Illinois EPA at 217-785-4787 or the St. Charles Public Works Department at 630-377-4405 or [pw@stcharlesil.gov](mailto:pw@stcharlesil.gov).

---

2019 Refuse Collection Rates Take Effect July 1

*Stickers Purchased Before July 1 will be Honored*

Beginning July 1, 2019, refuse collection fees from Lakeshore Recycling Systems will change for City of St. Charles residents. All stickers previously purchased prior to July 1 are still valid, so residents can use their current supply.

The 2019 rates for stickers and monthly container rentals are:

**Stickers and Bags**
- Refuse Sticker $2.72 ea.
- Yard Waste Sticker $2.72 ea.
- Half-size Refuse Bag $2.08 ea.

**Monthly Container Rentals**
- Standard 65-Gallon Recycling Toter $0.00
- 35-Gallon Refuse Toter $18.03
- 65-Gallon Refuse Toter $19.07
- 95-Gallon Refuse Toter $20.12

For general service questions, contact Lakeshore Recycling Systems at 630.581.8650. For information about the collection schedule, where to buy stickers, or additional collection services, visit our website [www.stcharlesil.gov](http://www.stcharlesil.gov) or contact the St. Charles Public Works Department at 630.377.4405.
Combat those **Pesky Mosquitos**

St. Charles has a robust program for combating mosquito outbreaks, which includes surveillance, monitoring, larval control and adult mosquito control.

**What you can do:**

1. Discard old tires, tin cans, buckets, drums, bottles, or any containers sitting outside that hold water.
2. Drain low lying areas in the yard holding water. Before filling in any low lying areas, please contact the Community & Economic Development Department at 360-377-4443 to make sure there are no permitting requirements or drainage concerns.
3. Cover trash containers to keep out rainwater.
4. Repair leaky pipes and outside faucets.
5. Empty plastic wading pools and store indoors when not in use.
6. Make sure your backyard pool is properly cared for while on vacation.
7. Change the water in birdbaths and planters frequently.
8. Keep grass cut short and shrubbery well-trimmed around the house.
9. To prevent bites, the Illinois Department of Public Health encourages residents to use insect repellent, avoid being outdoors during dawn and dusk hours when mosquitoes are most active, and to wear long sleeves.

The City of St. Charles has a contract with Clarke Environmental, Inc. which helps us to manage mosquito problems. Residents may call Clarke directly at 1-800-942-2555 regarding mosquito annoyances, treatments, spraying schedule, dead birds, standing water, etc. Information also is available on Clarke’s website, [www.clarke.com](http://www.clarke.com) or the City website, [www.stcharlesil.gov](http://www.stcharlesil.gov). For additional questions, contact the City of St. Charles, Public Works office at 630-377-4405.

---

**Be Neighborly Keep the Noise in Check**

It’s summer and we all want to spend more time outside. Whether you’re out mowing your lawn, working on a home construction project, or just throwing a party, be a good neighbor and keep the City’s noise restrictions in mind.

For residential properties and any adjacent streets:

- Outdoor maintenance activities are prohibited from 10:00 p.m. to 7:00 a.m.
- Construction activity is prohibited from 7:00 p.m. to 7:00 a.m.
- Refuse collection is prohibited from 7:00 p.m. to 7:00 a.m.
- Amplified sounds from outdoor sources are prohibited from 10:00 p.m. to 10:00 a.m.

- Amplified sounds from indoor sources are subject to the noise standard from 10:00 p.m. to 10:00 a.m.
- For Single-Family Dwellings: Amplified sounds shall not be clearly audible at the property line
- For Multiple-Family Dwellings: Amplified sounds shall not be clearly audible at the perimeter of the dwelling unit.

You can read the complete ordinance on our website. To report a noise issue, please dial 911.
Local Flood Awareness

St. Charles generally has not experienced widespread damage due to flooding. However there are local flood hazard areas throughout Kane County. Flooding from the Fox River, Ferson Creek, State Street Creek, 7th Avenue Creek, and Norton Creek usually can be forecast in advance. But flash flooding along these rivers and numerous tributaries to these waterways may occur suddenly and unexpectedly.

Visit the City’s website, www.stcharlesil.gov/flood, for additional information and links to various flood-related sites. You also can find out if your property is in the 100-year floodplain, and access maps and other flood-related information at the Public Works Engineering Division, 1405 South 7th Avenue. Elevation Certificates dating back to the early 1990s also are available. Call the Public Works Engineering Division at 630-377-4486 for further assistance.

Summer Power Cost Adjustment Means Savings for Electric Customers

Have you noticed a line on your electric bill called “Power Cost Adj” and wondered what that is? It refers to the City’s Power Cost Adjustment Factor (PCAF). The City instituted the PCAF in 2013 to allow for adjustment of electric bills to match wholesale power prices.

Wholesale Power Prices Directly Affect the PCAF

The City purchases its power from the Illinois Municipal Electric Agency (IMEA). Like most commodities, wholesale power prices can fluctuate. The City adjusts the PCAF in accordance with our actual costs of purchasing power from IMEA.

The PCAF can result in a reduction/credit to your electric charges during periods of declining power costs, an additional charge in periods of rising power costs, or can be zero if power costs are steady and consistent with projections.

Because the City’s Electric Utility does not operate to make a profit, when we purchase power from IMEA, the charges on your bill reflect the actual costs we pay.

The PCAF Has Reduced Your Electric Costs Every Month So Far in 2019

In the first half of 2019, wholesale power prices consistently dropped, so the PCAF has resulted in lower electric costs for the City’s electric customers. During the first quarter of 2019, the PCAF was (-$0.004)/kilowatt hour (kWh) of electricity consumed, resulting in savings of approximately $2.80/month for the average City residential customer. The downward cost trend continued in the second quarter of 2019. The PCAF then was (-$0.006)/kWh, which resulted in even more savings, approximately $4.80/month on average for residents.

What to Expect on Your Upcoming Electric Bills

The PCAF once again will provide residents with lower electric costs from July through September. The PCAF for the third quarter will be (-$0.01)/kWh, which will result in a $10/month savings for the typical residential electric customer. By the end of the summer, the typical residential customer will have saved approximately $52.80 in electric costs, compared to base electric rates, because of the City’s decreased wholesale power costs.

The City remains committed to providing efficient, quality, reliable electric service to its residents at a reasonable cost. The continued focus on energy conservation and efficient power consumption allows the City to reduce its cost to purchase power and to pass those savings on to you, its customers.

Please Follow Dog Safety Regulations

Now that it’s here, everyone wants to get out and enjoy the nice weather. Man’s best friend loves being a part of the summer days just as much as we do! But be sure to be a responsible pet owner and follow City ordinances regarding dogs and pets. Below are some rules and tips to remember when handling your pets:

• The City of St. Charles has a leash law. This means any time you take your dog or pet off of owner property, it must be restrained by a proper leash or physical device as well as under the direct supervision of a competent person.

• Don’t leave animals staked outside during extreme heat or allow them to go beyond your lot or land.

• Make sure you clean up after your pets while on public property, within the City, or on any person’s property other than your own.

• A pet that has consistent violations such as barking at or chasing moving vehicles or persons, damaging any property, creating excessive noise, may be classified as a nuisance.

• If you have any concerns or animal related issues call 911 to dispatch an officer for assistance. To report a dog lost or found, call Kane County Animal Control at 630.232.3555.

Also, please note that no more than three dogs and/or cats total in any household, apartment or other dwelling is permitted. For more information on City ordinances regarding animals, visit our codebook here: https://codebook.stcharlesil.gov/title-6.
Street Rehab Program Update

A Lot of Planning Goes into Mapping Out the Project Every Year

About every five years, the City hires a contractor to complete a comprehensive street evaluation for the development of the City’s Street Rehabilitation program. The evaluation entails driving the entire City public roadway system (140 miles of City streets) in a specially-equipped vehicle that analyzes the existing pavement surface condition and conducts deflection testing. Once all of the roadway testing is completed, the contractor compiles and analyzes the data collected. These results allow the City to plan for short- and long-term street resurfacing and reconstruction in an efficient and cost-effective manner. Follow updates on the work on our website at https://www.stcharlesil.gov/projects/2019-street-rehabilitation-project

Road Testing Equipment:

Historic

Landmark of the Month

“Charles Hunt House”

July’s Landmark of the Month is the Charles Hunt House. Located at 514 Oak St., the Charles Hunt House was built in the Craftsman style sometime between 1923 and 1925. The home is a nearly unaltered craftsman style home. It embodies the appropriate wood detailing around the windows and doors as well as wood brackets and exposed rafters. The typical wide overhangs and eaves are also present and the fascia boards have a curved cutout detail at the eave line. There is a narrow trim band that separates the first and second floors. The window muntin pattern is 3:1 and many of the windows are grouped in twos and threes. All of this makes this home a wonderful example of the Craftsman architecture.

For more information about Historic Preservation, please visit https://www.stcharlesil.gov/historic-preservation

Charles Hunt House- 514 Oak St.
Built ca. 1923

St. Charles Police Department is Hiring Crossing Guards

An opportunity to serve your community

Do you enjoy working outdoors and with children? We are looking for dependable individuals (21 and older) to safeguard the children of our community. The Crossing Guard program is a vital part of providing safe travel to and from school for many students. We are currently seeking one regularly scheduled (morning and afternoon) Crossing Guard and several substitute Crossing Guards to cover when regularly scheduled guards are unable to cover their shift. Pay is $20 per crossing. Does this sound interesting to you? Visit www.stcharlesil.gov/jobs for information and to apply for this exciting opportunity to serve your community.
Pollinators
Submitted by Isabella Bernat
Student Commissioner, Natural Resources Commission

Under the brilliant rays of sunlight, flowers thrive during the summertime. With them comes a vital group: pollinators. Pollinators such as bees, butterflies and beetles, among others, are essential to plant life as they unwittingly spread the pollen of plants from one to another when they land on a flower. This allows for plants to fertilize and create seeds or fruit. Pollinators are the reason our spring and summer gardens bloom year after year with an abundance of plants, and that our grocery stores are filled with delicious produce from pollinated crops.

Unfortunately, the populations of pollinators have been declining worldwide. This decline is due to a variety of reasons including habitat loss and increased use of insecticides. Thankfully, there are ways everyday citizens can help. Providing habitats for pollinators can be as simple as planting native flowers that will provide nectar from spring through fall. Flowers native to Illinois include coneflowers, sunflowers, goldenrod and many others. Adding bunch grasses or tussock grasses to your garden also provides habitats for ground-nesting bumble-bees.

If gardening isn’t for you, there are many other ways to make a positive impact on our local pollinator populations. For instance, lessen the use of insecticides or try a less toxic alternative to pest control. Many times insecticides will also kill species such as bees or other small insects in addition to the unwanted pests. Another easy way to support pollinators is to purchase a bee house. Mason bee houses provide nesting habitats for native non-stinging bees. Simply hang the bee house near a flower patch and follow the care instructions that come with the specific bee house as each one may be slightly different. Bee houses are inexpensive and available at local supermarkets. Finally, consider joining a citizen science project such as the BeeSpotter program from University of Illinois.

For more information about pollinators and what you can do to help, please refer to www.pollinator.org.

It’s Christmas in July: 185th Anniversary Photo Contest Winner Announced

A few months ago as part of our 185th Anniversary celebration, we launched a photo contest to choose a photo to feature on the cover of the 2019 City of St. Charles Christmas card. We received 21 entries, which were reviewed by the St. Charles Arts Council. Thanks to all who submitted photos. There were so many good ones to choose from!

It was a tight race, and the winning photo was this beautiful photo of the Fox River in winter. The photo was submitted by St. Charles resident Rick Brems. It was taken from the Indiana Street pedestrian bridge in January 2014. Rick described the photo as “steam rising from the Fox River at around minus 15 degrees...geese and ducks huddled together on frozen river...natures survival...downtown St. Charles riverfront in cold winter splendor.”

As we mentioned, it was a tight race. So we decided to award the runner-up photo with a feature on our 2020 City Christmas card.

This photo of Main Street dressed up for the holidays was taken by Benjamin Rinenbach of St. Charles on December 18, 2014, around 8 p.m. Ben describes taking the photo: “it was absolutely freezing, but I had just gotten a new camera and couldn’t wait to get outside and try it out (so glad I did, I got some great shots that night).”
Celebrating 185 Years: The Story of Pottawatomie Park, the State’s 1st Public Park

The history of Pottawatomie Park dates back over 180 years. The land was first purchased by Calvin Ward in 1834, and the property belonged to his family for many years until developers started to take interest during the late 1880s. They sought out the property for its natural beauty and could easily picture a resort, hotel, and park in its place. A pavilion was built on the edge of the river in 1892, but the plans for a resort never went much further. The pavilion would eventually have to be torn down due to too much wear and tear, but a new version was later rebuilt and still stands today.

While the dream of building a resort on the land did not come true, the plans for a park resurfaced in 1912. The land was bought by the St. Charles Township, and was named the Pottawatomie Park after the Potawatomi Tribe that lived in the area until 1833. Under the new Illinois Park Act, it became the first public park in Illinois.

In 1915, the first Native American statue honoring the tribe was placed in the park. Sadly, it would be destroyed by a group of vandals around 45 years later, leaving only the head behind.

Several improvements and additions to Pottawatomie Park were made possible during the Depression thanks to the Works Progress Administration. The funds provided helped build the park’s drinking fountains, pool, baseball fields, tennis courts, golf course, and more.

From Pottawatomie Park’s inception and to this day, it has served as a great location for local recreational activities of all kind. It is a central part of the St. Charles community, and surely many residents have good memories of spending time there. See you at the annual fireworks ceremony at the park on July 4.

Visit the 185th Anniversary page of our website for more historical photos and stories.
St. Charles Chosen to Host 2019
America in Bloom Symposium Oct. 3-5, 2019

Nearly 300 Symposium Attendees to Come to St. Charles

From Oct. 3-5, 2019, an estimated 300 people from cities around the country will gather right here in St. Charles for the American in Bloom Symposium and Awards Program. It’s an exciting chance to showcase our beautiful city to the entire America in Bloom community.

What is America in Bloom - St. Charles?
Residents, and members of local businesses and organizations have joined together to form America in Bloom - St. Charles. The group works together to improve St. Charles through landscaping, environmental, and heritage preservation projects. They enter St. Charles in the America in Bloom national program each year, in which St. Charles took home top honors, winning its population category in 2017 and 2018.

Why is America in Bloom Important to St. Charles?
Not only does America in Bloom promote community beautification, community involvement is an essential component. And the group really gets things done. A few examples of projects:

• Organize the Holiday Light Recycling program that diverts tons (literally) of lights from landfills each year
• Added new cement planters around town
• Added recycling containers throughout the community
• Helped install festive lights on the First Street Plaza
• Worked with local businesses to encourage recycling and waste reduction

Become a Volunteer!
Become a part of the America in Bloom team and help make St. Charles the best it can be. There are several volunteer opportunities to help St. Charles host the Symposium in October:

1. Assist with tours downtown as a pacer or providing directions
2. Serve as an “All About St. Charles” information specialist to answer visitor questions
3. Greet guests in the lobby at Pheasant Run
4. Work the registration table
5. Help decorate the conference room and stuff goody bags
6. Set up tents & chairs for the walking tour
7. Decorate City Hall windows
8. Help lift and arrange equipment, boxes and other items

Contact Marcia Koenen, Volunteer Coordinator at 630.205.2868 or mkoenen@att.net. And follow us on Facebook www.facebook.com/americainbloom.stc.il.
July 26 Blood Drive at Fire Station #1

Someone needs blood every three seconds. Will you help?

Join us on July 26 for a blood drive. From 11 a.m. to 2 p.m., the Heartland Blood Center mobile donation bus will be outside Fire Station #1 at the downtown municipal center. Call the City Human Resources Department at 630-377-4446 to make an appointment. We all know blood donations help cancer patients, those with liver disease, and others, but did you know there are health benefits to donors, too? Donating blood can reduce harmful iron stores, lower your cancer risk, burn calories, and result in fewer heart attacks and strokes. You also get a free blood analysis. Visit www.heartlandbc.org for information about Heartland Blood Center and blood donation facts.

Christmas In July Helps Local Dog and Horse Rescues

Your eyes aren’t deceiving you...there is a holiday giving tree on display at city hall. The City’s Project Wellness employee wellness team is collecting donations of items, gift cards and funds to help our furry friends at Rover Rescue and Field of Dreams.

- Rover Rescue - https://roverrescue.org/
- Field of Dreams Horse Rescue and Adoption - https://www.fodonline.org/

Simply select a tag from the tree and purchase the item listed. Then attach the tag to the item and bring it back to city hall by July 31. Gift cards and money donations (checks made payable to Rover Rescue or Field of Dreams Horse Rescue & Adoption) may be given to the receptionist.

All donations are appreciated, both large and small. Contact the Human Resources office at 630-377-4446 with questions or for more information.
